Make UPS Create the Full-Time Jobs Required by Our Contract

To: General President James Hoffa and IBT Package Division Director Ken Hall

UPS is violating the contractual requirement to create and maintain 20,000 full-time combo jobs. Working Teamsters went on strike in 1997 to win these full-time jobs. We need to defend them.

We call on the International Union to file a national grievance to make UPS create all 20,000 full-time combo jobs with back pay for all Teamsters who have been improperly denied full-time work. The IBT should also conduct a nationwide audit of combo jobs and provide every local union with the list of 20,000 jobs provided under the contract, so that Teamsters can work together to enforce our rights.
