April 17, 2019

Dear Hatboro Voters:

It is with great pleasure that I endorse public funding for the historic Hatborough Union Library. I have felt that public funding for this endeavor was long overdue. All public organizations are always in need of a dependable funding stream so that they can complete the job of yearly budgeting and not need to depend on the sometimes difficult choices that members of borough councils face with our own budgeting problems.

With a stable funding base, the library can improve hours of service, make additional investments in much needed computer hardware and software. Studies have also shown that having a working library is important for the maintenance of higher property values within Pennsylvania.

I hope all voters in Hatboro are proud of their historic library and that they will take this into account and VOTE YES with me on May 21, to ensure proper funding for the library.

Thank You,

David Rich

Member of Hatboro Council
MEMBER OF FINANCE COMMITTEE
