Sample Language You Can Adapt to be Inserted Into Your District LCAP

Our district is committed to helping our students come to school healthy and ready to learn. It recognizes the impact that students’ having health coverage has on the state’s priorities of improving school climate, student engagement, parent involvement, and ultimately, student achievement. Therefore, our Local Control Accountability Plan includes a mechanism and resources to identify students without health coverage and help them enroll or find a counselor who can. To accomplish this, the district plans to _____ (describe mechanism that works best in your district) and to allocate $$ to support this activity.
