

# Mark Alexander's Republican-backed school voucher schemes divert funding from public schools.<sup>1</sup>

**IT DOESN'T HAVE  
TO BE THIS WAY.**

<sup>1</sup> Mark Alexander said, "Pilot programs for OSA may be one option." (as quoted from "Education Issue Provides Contrast Point in LD34 Senate race", PolitickerNJ.com, 4/9/13). The Opportunity Scholarship Act (OSA) is the legislative act supported by Republicans that would establish school vouchers in New Jersey.

"...by drawing money away from public schools, such programs weaken a system left vulnerable after years of crippling state budget cuts - while showing little evidence that students actually benefit." (New York Times, 3/27/13)
