Texas Hospital Association PAC Endorses Brooks Landgraf for House District 81

AUSTIN (Jan. 27, 2014) – Brooks Landgraf, R-Odessa, candidate for Texas House District 81, has received the endorsement of HOSPAC, the Texas Hospital Association’s state political action committee.

Texas hospitals provide the highest quality patient care and serve their communities not only in the delivery of complex services, but also as a major economic and job source in our communities. Landgraf’s knowledge of health care and the challenges hospitals face will make him a significant asset to the Texas Legislature and the people of West Texas.

“Texas hospitals excel at delivering the highest quality patient care even as they experience numerous financing and reimbursement challenges,” said John Hawkins, senior vice president of advocacy and public policy for THA. “Brooks Landgraf has indicated a willingness to work with Texas hospitals to champion their successes and develop solutions to their challenges. With his expertise, he will continue to bring improved efficiency and effectiveness to a health care industry that is part of the state’s robust economic engine.”

Landgraf’s commitment to Texas hospitals provides stable ground amid rapid transformation of the health care system.

One of the largest hospital associations in the country, THA represents more than 85 percent of the state’s hospitals and health care systems, which employ some 369,000 health care professionals statewide. The 33-member HOSPAC Board of Directors makes endorsements after carefully considering candidates’ positions on health care issues and getting feedback from local hospital leaders.
