RE: Public comments made on Oct 15<sup>th</sup>, 2013 and  
Oct 16<sup>th</sup> Vote on the Continuing Resolution

Dear Congresswoman,

The Executive Board of the Clark County Republican Party feels it necessary to address the very public comments you made in your October 15<sup>th</sup> Press Release in which you stated *"It's time for my colleagues to face reality."*

Lee Atwater once said "Perception is reality". As elected representatives of the grassroots and the local Republican Party, our perception regarding the so called "Affordable Healthcare Act" and "Debt Ceiling" appears to differ significantly from your perspective in Washington D.C. As we see it, this is no longer about how to spend the citizen's tax dollars, but rather now it has become an issue of distributing pain through debt to our children and grandchildren. We look to you to represent us by leading in D.C. not *".....give House Republican leaders leeway to craft the best deal they could."* A deal that in our perception (reality) was a major setback to your constituents and the American people.

Once again, it was a minority of Republican Representatives that voted with all 198 of Democrats that allowed passage of this resolution. Of the 232 Republican Representatives voting, a majority of 144 voted no on this Resolution. And how disappointing it is that not one from Washington State decided to stand *for* the citizens of Washington State. House Speaker John Boehner said yesterday, *"We fought the good fight. We just didn't win."* We submit all 87 surrendered.

In parting we would like to leave you with a thought expressed by yet another great American: *"Cowardice asks the question, 'Is it safe?' Expediency asks the question, 'Is it politic?' But conscience asks the question, 'Is it right?' And there comes a time when one must take a position that is neither safe, nor politic, nor popular but because conscience tells one it is right."* ~Dr. Martin Luther King Jr.

Sincerely,

The Clark County Republican Party Board of Directors
