

Hey Mark!
I just want you to know that...

This is your opportunity to influence how the public sector looks in the future.

What would you tell the Premier of WA if given the chance?
For the last eight years the Government hasn't been listening,
we haven't had a chance to tell truth to power and now we do.

A word of warning - we don't want you to get into strife with your Department.
If what you want the Premier to know might get you into trouble or you are concerned about your Department's Code of
Conduct, tell us here what you like about your job or why you do what you do.

If you have something juicy, email us (it's our job to protect your job so we'll keep you safe) and we will pass it on.
