

## Hands Off Universal Pensioner Benefits

Short Title: Benefits for Pensioners

To the House of Commons.

The Petition of residents of the UK,

Declares that the Petitioners believe that politicians from all the main political parties have suggested that the winter fuel allowance, free bus pass, TV licences for the over 75s and prescriptions for older people should either be means-tested or withdrawn altogether and further that the Petitioners believe that this represents an unfair attack on the benefits that older people have campaigned for over the years, partly due to the inadequate level of the state pension.

The Petitioners therefore request that the House of Commons urges the Government to maintain the winter fuel allowance, free bus passes, prescriptions and TV licences for all over 75s.

And the Petitioners remain, etc.
