

Hearst Elementary

This month, we have been reading and talking about the first Thanksgiving. We have read several books about the early settlers and their journey to America. This is what we had to say:

“They did not eat turkey at the first Thanksgiving,” Adrian said. “We only have one day for Thanksgiving. The pilgrims had three days to celebrate,” said Ava. “They had three days to celebrate Thanksgiving,” Genevieve said. “Squanto helped the pilgrims by teaching them to do stuff like make medicine and grow food,” Stella said. “The pilgrims had to work hard to build houses and to cook,” said Eliza. “They traveled on the Mayflower for two months and three days. There were no houses so they started building the houses and the buildings themselves,” Lucas said. “The kids had to clean up all of the dishes after the dinner,” said Madison.

Our kids are so excited about enjoying the holidays with their families, and will be able to remember and honor the reason we celebrate Thanksgiving today!
