Public Jobs for the Unemployed

Quality Public Schools

Opt out of high stakes testing, Common Core, privatization, and union-busting. Opt into fully funded, desegregated schools, tuition-free from pre-K through college.

Progressive Taxes and Budgets

By restoring the more progressive tax structure NY had in the 1970s, we can fully fund public schools and colleges, restore revenue sharing with local governments, cut regressive local sales and property taxes, and build the infrastructures and services of a Green New Deal.

100% Clean Energy by 2030

Ban fracking. Phase out nukes. No new fossil fuel infrastructure. A state bank and public power for job creation in green industries, including a Smart Grid linking Renewable Energy, Hydrogen Energy Storage, Mass Transit, Affordable Housing, Clean Manufacturing, and Organic Agriculture.
