USA NETWORK

Today, it is more critical than ever that we address the deeper causes of international poverty and work to create a system of just responsible finance, one that benefits the entire population, not just the few. Jubilee USA Network brings people together through active solidarity to turn these realities around.

Join Jubilee USA Network as we bring two Zimbabwean scholars and activists, Hopewell Gumbo and Kelvin Hazangwi to you! They will be raising awareness about global economic policies that entrap the Global South in poverty. They will speak about the history of the debt crisis, current efforts for greater transparency and accountability, the movement for just practices and broader global economic justice.

Go to www.jubileeusa.org/endthedebtcrisistour2012 to read the speakers full bios and to find official tour dates and locations.
