

2008 Jubilee USA Network Annual Report

Dear friends,

2008 was a banner year for Jubilee USA Network.

The most exciting moment came in April, when we won passage on the floor of the US House of Representatives of the Jubilee Act. I remember watching C-SPAN in our offices and our team erupting into shouts of joy when the bill finally passed the House by a bi-partisan 2/3rds majority!

The Act is ground-breaking legislation that would expand eligibility for international debt relief by up to two dozen low income countries and reform the policies of international financial institutions.

This victory was hard won – it came after literally five years of policy work and drafting, building political support, and mobilization. And it was only possible with the support of a broad and diverse base of supporters across the United States among faith communities, community groups, and other networks.

With this victory, we put the issue of international debt relief and the need for more responsible financial and economic policies for the poorest people back on the policy agenda in Washington, DC. While the Senate adjourned before final passage in that chamber, we are well positioned for success on the legislation in the years ahead.

Also in 2008, we spent some time evaluating our work and looking ahead. The result of this effort came in November, when we launched a new strategic plan to guide our work and growth for 2009-2012. Building on our core competency and focus on international debt relief as a tool to fight global poverty, the new plan engages Jubilee USA in broader efforts to secure reform of the international financial architecture to the benefit of the poorest countries.

This broadened focus became even more critical in light of the onset of the global financial and economic crisis as 2008 comes to a close.

Thank you for your continued support for Jubilee USA's vital work. Together, we will break the chains of debt and build a more just world for the world's poor.

Sincerely,

A handwritten signature in blue ink that reads "Neil Watkins". The signature is stylized and fluid.

Neil Watkins
Executive Director

IMPACTS OF DEBT CANCELLATION

Witness the impact of debt relief in 2008:

Nicaragua used its savings to increase investment in health by \$54.3 million and in education by \$121 million between 2007 and 2008.

Burundi is using the extra \$75 million debt relief has provided towards the abolition of primary school fees and the building of 1,100 primary school classrooms.

Sierra Leone is using \$33 million freed by debt relief in 2008 to fund an emergency electricity generation program which will double electricity supplies.

Children in Nicaragua prepare for the school day.
Photo courtesy of Dan Nevill

Representative Spencer Bachus:
"DEBT RELIEF IS DOLLAR FOR
DOLLAR THE MOST EFFECTIVE
PROGRAM IN ASSURING OUR
NATIONAL SECURITY."

Archbishop Desmond Tutu:
"Too many of the
world's poorest children
needlessly starve or go
without education because
too many impoverished
nations - even after
the laudable debt relief
provided to date - are still
funneling scarce resources
to multilateral banks
instead of paying for needs
at home. The world community
has found crushing debt to be akin to a
modern-day apartheid, and has responded
with debt cancellation. Unjust debt leaves
developing nations at the behest of the
powerful. Shall we let the children of Africa
and Asia die of curable disease, prevent
them from going to school and limit their
opportunities for meaningful work - all to
pay off unjust and illegitimate loans made
to their forefathers? When success comes
on expanded debt cancellation, as it did
with an end to apartheid, this victory will
not be ours alone but will belong to the
whole world."

"Debt cancellation a victory for the world,"
[Baltimore Sun](#), May 7, 2008

Former Congressman
Tony Hall :

"It might seem crazy
to advocate for debt
relief abroad, when
Congress is negotiating debt
relief for our own country.

However, since leaving
Congress, I am more and more
convinced that the value of our
leadership in the world is not
measured by how we deal with
protecting the riches of our
wealthy, but rather it is in how
we address the needs of the
most vulnerable.

Debt cancellation
is a critical part of
the equation when
considering ways
to end hunger and
extreme poverty
around the world.

Canceling the debts of the most
impoverished nations around
the world is crucial so these
countries can redirect funds to
desperately needed investments
in education, health care and
clean water for their citizens. "

"Forgive Poorer Nations' Debts," [Columbus
Dispatch](#), October 18, 2008,

Service Committee

JUBILEE IN 2008

Jubilee USA's work in 2008 included several key elements: education and outreach, policy analysis and advocacy, and strengthening international partnerships.

In addition, we engaged in a year long planning process which led to the completion of a new strategic plan for the organization to govern its work for the period from 2009-2012.

EDUCATION & OUTREACH

A central component of Jubilee USA's work is to educate the public and its members about international debt and the impact of international finance on the poorest countries.

The Jubilee Congregations program. Jubilee Congregations commit to work for a more economically just world by praying and acting for Jubilee justice. In 2008, 20 new congregations joined the program.

Jubilee Sunday. Jubilee Sunday is a way for Jubilee Congregations and other interested churches to highlight the Jubilee call in the form of a service which highlights the issues and engages members in advocacy. On Jubilee Sunday, held this year on April 13, more than 50 churches held Jubilee services. We also distributed new education and worship resources for the April 2008 Jubilee Sunday which included educational background information, sermon notes, worship resources, songs, activities for kids, and more.

Grassroots Conference in Columbus, Ohio. From June 20-22, we held our third annual grassroots training and action conference in Columbus, Ohio. More than 100 participants joined the event for education and inspiration for the work ahead. There we launched two new campaigns addressing the problem of "vulture funds," and urging the next President to appoint a Treasury Secretary who shares our vision of debt justice.

Speaking Tours. In April 2008, we held two speaking tours to educate the public about global poverty and debt. The first, in Columbus, Ohio, featured Kenyan debt campaigner Wahu Kaara, the Director of the Kenyan Debt Relief Network. Also in April, Jubilee partnered with Network member American Friends Service committee to organize a six day Africa Peace with Justice Speaking tour in Miami, Florida from April 11-16, 2008. There were 16 different events during the tour at churches, colleges, universities, Quaker meetinghouses, community centers, and many other venues. This tour focused on outreach to diverse communities including the African-American community and the Haitian immigrant community.

Stand Up and Picture New Leadership Campaign. In partnership with the UN Millennium Campaign, we organized more than 40 events across the US in October 2008 as part of the "Stand Up, Take Action" campaign in which millions across the globe stand up on the same day to raise awareness about global poverty and the Millennium Development Goals. We encouraged participants to take photos and sign petitions at the events which we in turn delivered to the Presidential transition team in December.

East Chestnut Mennonite Church in Lancaster, PA participates in Jubilee's Picture New Leadership Campaign

Ecumenical Advocacy Days. We co-led the Jubilee/Economic Justice track of the 750-person Ecumenical Advocacy Days conference from March 7-10, 2008. The event featured educational plenaries and workshops on global development and peace issues.

Launch of DVD. We produced a 20 minute educational DVD on the impacts of debt entitled "Stand Up, Take Action: End Global Poverty and Unjust Debt" which has been distributed to hundreds of Jubilee supporters across the US.

POLICY ANALYSIS, MEDIA OUTREACH, & ADVOCACY

Policy Briefing Notes. We regularly develop policy-related materials for policymakers and the media. In 2008, we produced a series of six new policy briefing notes with up-to-date information and analysis on issues of international debt and development. Topics included the need for expanded debt cancellation, the impact of IMF/World Bank loan conditions, the issue of IMF gold sales, the World Bank's financial resources, and vulture funds.

Jubilee Act. In the first half of the year, we focused strongly on education and advocacy in support of the Jubilee Act legislation, which would expand debt relief to additional needy poor countries and reform IMF/World Bank policies. We won a historic victory when on April 16, the US House of Representatives passed the

Jubilee Act for Responsible Lending and Expanded Debt Cancellation by a strong bi-partisan majority of 285-132. This was the culmination of policy development, education, direct advocacy, and grassroots mobilization by Jubilee USA and its member organizations. The legislation is the most bold and far-reaching law on debt passed by a legislative body in any rich nation to date. Following passage in the House, we moved our attention to the Senate, where the Foreign Relations Committee held a hearing on April 24, and then voted the legislation out of committee on June 24.

Vulture Funds. Soon after the launch of our new Stop the Vulture Culture campaign, leading Members of Congress introduced the new Stop Vultures Act on August 1st, a strong bill that would outlaw profiteering by vulture funds on poor indebted countries.

Transition Policy Recommendations. In late December, we developed and presented a detailed set of transition policy recommendations on debt and international finance to senior members of President Obama's transition team. The Jubilee transition recommendations were endorsed by 25 prominent religious denominations, development agencies, and global poverty advocacy groups. President Obama and Vice President Biden voiced their support for debt cancellation on the campaign trail, commitments we'll be holding them to in the coming years.

Media Outreach. We earned media coverage of the debt crisis and its impacts, and Jubilee USA's work the *Associated Press*, the *Houston Chronicle*, the *Florida Sun-Sentinel*, the *Miami Herald*, and in other leading publications. We won significant coverage in mainstream and faith-based media around the passage of the Jubilee Act in the House in April. We have also successfully placed op-eds in 6 major newspapers.

Climbing the mountain toward economic justice in Quito, Ecuador, site of a strategy meeting for the global debt movement in September 2008

STRENGTHENING INTERNATIONAL PARTNERSHIPS

The lifeblood of Jubilee USA's work is its relationship with Jubilee partners in Africa, Asia, and Latin America.

In 2008, Jubilee USA worked to convene a major international strategy meeting in September 2008 in Quito, Ecuador. The gathering brought together 50 representatives of debt campaigns from more than 35 countries to set priorities and coordinate joint advocacy work plans on international debt and related issues.

The six-day meeting was comprised of a series of study and strategy sessions. The study sessions were focused on the concept itself of illegitimate debt, issues and challenges related to operationalizing the plan, engaging governments and international institutions and using legal/judicial arenas for concrete actions against and/or for avoiding illegitimate debt, and transforming the international (and national) financial architecture towards principled, responsible, and/or alternative financing.

The meeting made significant progress - organizations present reached political agreements, agreed to an overall framework for joint coordinated action, and committed to specific actions going forward.

Jubilee USA continues to play a leadership role in the global Jubilee movement by serving as a member of the International Facilitation Team of the South-North campaign on Illegitimate Debt. As part of this, we engage in ongoing telephone strategy calls, convene occasional global meetings, and offer support to specific initiatives of Jubilee campaigns in various countries.

JUBILEE USA NETWORK COUNCIL MEMBERS

More than 75 organizations comprise the Jubilee USA Network. These organizations actively support the Jubilee USA platform in their programming and policy initiatives, commit to educate and mobilize their networks, send a delegate to Jubilee USA's annual meeting, and make an annual financial contribution to support the work of the Network.

JUBILEE CONGREGATIONS

A growing number of diverse congregations across the country are part of the Jubilee Congregations Network. Congregations that join the program commit to pray for Jubilee, provide an engaged contact person, write at least one letter per member per year (or take another equivalent form of education), and make a financial contribution to sustain the program.
