

To the International Monetary Fund Executive Directors-

As members of faith communities, we hold you in our thoughts and prayers as you make decisions around our global financial system.

We write to you because of our faith-held belief that our financial system must serve, protect and promote the participation of the most vulnerable. As decision makers at the International Monetary Fund, you have a vital leadership role to play in the creation of this type of global economy.

There are actions that you can take right away that would offer greater protections and participation to vulnerable communities and all of those who are affected by your decisions and the processes you guide.

We ask that the IMF:

1. Broadcast the IMF's Executive Board meetings via webstream
2. Make public transcripts of IMF Executive Board meetings within 3 days of a meeting
3. Make public process documents around restructuring analysis, country visits and reports early enough for public comment before final decisions are made

These actions will also help all people have a greater understanding and appreciation for conversations taking place at the Fund.

We hold you and your efforts in prayer.

Sincerely,
