Liberal Democrat Autumn Conference

13th - 17th September 2008

Bournemouth

**Make it Happen**

# Central to the country's success

London is a capital city we can all be proud of: a financial leader, a cultural centre, a model of diverse, dynamic urbanism.

But its successes – and its problems – do not exist in isolation. Everyone in the UK profits from London's prosperity and, conversely, the issues faced in our capital have a significant impact on the rest of the country.

So, as we work to tackle gun and knife crime, build more affordable housing, and deliver the transport systems people want, it is vital that we work together to build a Greater London – and a Greater Britain.

# Introduction

## By Duncan Brack

Welcome to the Final Agenda for the autumn 2008 federal conference of the Liberal Democrats.

Conference is the parliament of the party – the chance for the conference representatives elected by local parties to determine the policy and campaigning priorities of the Liberal Democrats.

Unlike the conferences of the other main political parties, what you say and how you vote at conference matters – we are democrats in reality as well as in name.

This year's conference features many opportunities for you to exercise your vote. Most important are the debates on the four policy papers submitted by the Federal Policy Committee: on Europe, on international security and on transport, together with *Make it Happen*, the 'vision and values' paper which will be central to our preparations for the next general election manifesto.

Of course there's a huge range of other things happening at conference – but amongst the fringes, training, networking and gossiping, don't forget to make sure you vote! At the end of the day, democracy is what lies at the heart of our conference.

# Making it Happen in Bournemouth

By Nick Clegg MP

I'm delighted to welcome you to Bournemouth for this year's federal conference.

This is an exciting time to be a Liberal Democrat. Our *Make it Happen* document, which we're debating this week, outlines the Liberal Democrat vision for Britain ahead of the next General Election. It sets out how our party is best placed to deliver real change for Britain.

We have a clear and powerful vision backed up by solid and easily identifiable policies. Up and down the country – out with local campaigners or taking questions from all comers at my town hall meetings – I hear the same message.

People are fed up with Labour and want something different – but they aren't taken in by David Cameron. It's our chance to be what they're looking for.

We are meeting that challenge. In the conference hall, the bars, the fringes and the training events at this conference I know that our party is the one that will be full of fresh thinking and new ideas about how best to tackle the problems our country faces.

From fair taxation for struggling families to improving our schools and hospitals; from safeguarding our environment for our children to keeping our streets safe; from protecting civil liberties to securing Britain's place in the changing world; Liberal Democrats are leading the political agenda and debate.

Between now and next year's important elections, for local authorities across much of the country as well as for the

European Parliament, we must all get out on the doorstep and explain to people the difference that Liberal Democrats can make in their area. We are fortunate that our sitting councillors and MEPs give us a strong record of action and achievement to build on.

When voters hear what we are about, it clicks. More and more people across the country are giving us their support, because they know we'll stand up for them. They want real change they can feel every day; we need to show them it's the Liberal Democrats who will make it happen.

We know that if we want Britain to be fairer, we are the only ones who will make it happen. Labour can't. And the Tories won't. We can and we will.

There's no limit to what we can achieve together.

# Welcome to Bournemouth

By Annette Brooke MP

I am delighted to welcome this year's conference back to Bournemouth.

It provides a wonderful location for a conference; with perfect weather at all times (well, nearly all the time), glorious sandy beaches, and a night life second to none along the south coast.

Bournemouth comes to life at night and well and truly shakes off its image as a watering place for the elderly. There are a large number of nightclubs to suit all tastes, and many, many licensed bars! There is also a good range of eating places within easy walking distance of the Conference Centre.

I can personally recommend shopping in Bournemouth. There is still a choice of three good department stores, we have all the main chain stores and much more. Ladies will find some interesting individual dress shops in Westbourne.

However, I must confess to being a Poole resident for over 32 years, a Poole councillor for 17 years and now an MP for part of Poole.

Traditionally there has always been a great deal of rivalry between Poole and Bournemouth; with a history going back 760 years it is not surprising that Poole should see Bournemouth as a young Victorian upstart. The beautiful bay which you see from the Conference Centre and perhaps look over from your hotel is actually called Poole Bay.

Bournemouth is proud of being a University Town. The University has an international reputation for a wide range of subjects including forensic science and tourism. Bournemouth also

boasts a Symphony Orchestra with a world-class reputation.

I am sure that you will have a great time in Bournemouth. If time permits, a long walk along the promenade is well worthwhile with perhaps a diversion into the gardens and some of the chimes.

It is a wonderful place for family activities during the day time. These could well include a trip on the Land Train alongside the beach right through from Bournemouth Pier to Boscombe.

For an aerial view you can try a tethered balloon flight from the Lower Gardens which will take you up 500 feet and allow you to experience views for up to 20 miles in all directions.

## Make it Happen

# Tackling child poverty

By Martin Narey

The UK is the fifth wealthiest nation on earth, yet it has one of the highest rates of child poverty in the industrialised world.

More than three million of our children live in poverty and, despite commendable progress in reducing this scourge, the Labour Government seem destined to fall well short of their noble 1999 commitment to halve child poverty within a decade.

Child poverty has a profound impact on a child, their family, and the rest of society. It often sets in motion a deepening spiral of social exclusion, creating problems in education, employment, mental and physical health and social interaction.

This is illustrated by the disturbing fact that a child born into deprivation is now more likely to inherit his or her parents' disadvantage than at any time in our recent past.

This important issue was immediately taken up by Nick Clegg on becoming leader of the Liberal Democrats in December 2007. In his acceptance speech he said that he wanted to live in a country where social mobility becomes a reality again, so that no one is condemned by the circumstances of their birth.

I welcomed these remarks and I accepted Nick's subsequent invitation to chair an independent commission looking at the reasons for Britain's

apparently low levels of social mobility and seeking to make policy recommendations that would enable children from disadvantaged backgrounds to fulfil their potential.

The Commission is made up of ten members, each expert in their area, and we have heard from the principal academics in the field.

There is considerable debate about the extent to which social mobility is deteriorating or whether, if measured by social class rather than income, it has deteriorated at all. But what is not in dispute is the extraordinary, economically crazy and morally repugnant inequality in the UK.

I am confident that we shall, by early next year, have been able to identify key policy changes in education, health, employment, housing, and parenting and family life which could make a positive difference.

The challenge is formidable. A child born in disadvantage in the UK falls behind a child born in more comfortable circumstances at 22 months. And then everything which happens in the education process, from that point on, widens that gulf.

Children brought up in poverty are likely to grow up in poverty and bring their children up in poverty. They are less likely to work, will pay less tax and cost society much more in health and criminal justice expenditure.

**Make it Happen**

# Tackling child poverty continued

We can learn a vital lesson from the US, a society even less equal than ours, and where the failure to arrest child poverty now costs the US economy 4 per cent of GDP.

But the argument about inequality and child poverty is not simply an economic one. Ultimately this is a moral issue.

Children born in a number of areas in the south east can expect to live until their mid seventies before they develop a chronic illness which is likely, subsequently, to kill them. By contrast, a child born today in Liverpool, one of our greatest cities – and with cruel irony the European capital of culture – has a healthy life expectancy of only 62 years.

We should be ashamed.

Although our work is nearing its conclusion I still hope that more Liberal Democrat members will take the opportunity to contribute to our work and help to formulate policy in this very important field.

The Commission has its own website [www.socialmobilitycommission.org](http://www.socialmobilitycommission.org), on which you will find biographies of the commissioners; and submissions can be made through the website, or to: [martin@socialmobilitycommission.org](mailto:martin@socialmobilitycommission.org).

I hope to hear from you.

## Creating a Progressive Society

**Lib Dem One Day conference  
Saturday 17 January 2009, Central London**

**Keynote speech by Nick Clegg MP**

The Liberal Democrats are now the only hope for a progressive future in Britain. Labour has failed to correct the grossly unfair society that Conservative governments created. Come to this meeting and help us develop our policies to:

- open up opportunities for all,
- help struggling households,
- and meet Britain's environmental commitments without burdening the poor.

We can build a fair society that offers opportunities for everyone, addresses the stresses that modern families are under and gives young people hope for a better future

This conference, organised by the Federal Policy Committee will bring together Liberal Democrat Party members and outside groups to talk through the policy options and the political opportunities for the party. It will help to broaden the input into the General Election Manifesto, and to strengthen the party's engagement with progressive opinion formers and thinkers.

Places at the last one-day conference were fully booked well in advance. Party members wishing to register their interest in this event should email [onedayconference@libdems.org.uk](mailto:onedayconference@libdems.org.uk). Registration forms will be sent out after the autumn conference.

## Bournemouth 2008 Members' training programme

### *Free training for party members*

An extensive range of training courses is taking place at Federal Conference.

Training courses will take place in the Bournemouth International Centre (BIC) and Connaught Hotel from Saturday to Tuesday.

These courses are open to all party members. Access to training in the BIC requires a conference photo pass and in the Connaught either a conference photo pass or a membership card.

Full details of the training courses are listed in the training brochure available online at [www.libdems.org.uk/conference](http://www.libdems.org.uk/conference)

# Setting out our vision for Britain

By Danny Alexander MP

This is a hugely important conference for the Liberal Democrats. Britain is ready for a change, and this is our opportunity to set out our vision for Britain.

That's why we're debating *Make it Happen* this year. Under Nick Clegg's leadership, it's a radically different approach from the manifesto committee – setting out our vision and values in a completely new way.

This document is going to be at the heart of everything we do as a party, and it's all about putting people first, to make Britain fairer, and deliver the real change they need.

Liberal Democrats understand what makes life difficult for families these days – but what makes us unique is that we'll do something about it. The government and the Conservatives have given up on people. The government's run out of ideas, while the Conservatives say society is broken – and they can't fix it.

That will never be the approach of the Liberal Democrats. Times are difficult, but society is not broken. Now is the time that a strong party with strong ideas can bring people together to change Britain for good.

Under Nick Clegg, and with the most talented parliamentary team in British politics, and great councillors and campaigners all over the country – it's clear that party is us.

In *Make it Happen*, we offer real answers, and real change. There are no mistakes that governments have made that

cannot be set right by the British people if only they are given the chance to do so. That's why the proposals in this document offer people – individuals, families and communities – the power to make a better life for themselves. That's what the Liberal Democrats are all about.

Our aim is to create a fair society, where everyone gets real opportunities and chances in life. We can make that happen by taking power from government and special interests and giving it to people and communities.

Struggling families should be paying less tax – much less. So we'll replace Council Tax and cut tax bills for low- and middle- income families. Every tax cut we propose will put more money in the pockets of struggling families, not millionaires.

This document promises to give people more control in public services, too. And that means letting people take charge of their local health service; funding our schools in a different way so children who need extra help get it; and giving local people a real say in how offenders pay for their crimes, with community justice panels.

There are real answers here on the environment too. We have detailed plans to invest in clean energy instead of nuclear. And use the energy companies' £9bn windfall subsidy to cut

bills for families by insulating homes and creating social tariffs that encourage people to use less.

And finally, this document promises that we will do politics differently. We need to make politicians listen to people again. That's why we'll introduce fair elections so that every person's vote really counts, and end the influence of

big money in politics with a £25,000 cap on donations.

*Make it Happen* sets out a new approach to politics. Engaging with people, and offering real answers to real problems. It gives us a powerful sense of direction for the coming months. I look forward to debating it in the conference hall with all of you.

## 14.40 Policy Motion

Chair: Jeremy Hargreaves (Vice Chair, Federal Policy Committee)  
Aide: Catherine Bearder

### F3 Giving Citizens a Voice in Parliament

*12 conference representatives*

Mover: James Graham  
Summation: David Boyle

- 1 Conference notes:
- 2 a) In the Government's 2007 *Governance of Britain* Green Paper, it proposed to 'improve direct  
3 democracy', yet has failed for over a year to produce substantive proposals on how it plans to  
4 do this at Parliamentary level.
- 5 b) Liberal Democrat-run councils such as Kingston have led the way in developing more  
6 participatory forms of decision-making.
- 7 c) The party outlined a number of proposals for rolling out best practice nationwide in Policy  
8 Paper 79, *The Power to be Different* (2007).
- 9 Conference believes that giving the public a greater say in policy-making and a right to petition  
10 elected representatives at all levels of government could enhance representative democracy by  
11 providing accountability and clearer lines of communication between elected representatives and  
12 their constituents.
- 13 Conference also believes that it is imperative that local authorities, communities and civic society  
14 have access to the best advice and resources to support the empowerment of individuals and  
15 communities. Conference therefore regrets the closure, by the Government, of the International  
16 Centre of Excellence for Local e-Democracy, which was set up to provide extensive resources,  
17 training and advice for local government.
- 18 Conference therefore calls for:
- 19 1. **A petitioning system fit for the 21st century:** the system for petitioning Parliament should  
20 be simplified and it should be possible to submit petitions online; Parliament should develop  
21 a system formally to consider petitions submitted to it and take action where appropriate,  
22 and any resident or expatriate of the UK or a British Overseas Territory would have a right to  
23 petition Parliament in this way.
- 24 2. **People's bills:** whereby the six legislative proposals that received the most petition signatures  
25 from registered voters in any given year would be guaranteed a second reading debate in the  
26 House of Commons.
- 27 3. **A people's veto:** all Acts of Parliament would be subject to a rule whereby, if one million  
28 registered voters petitioned against it within 60 days of the law being passed, a referendum  
29 would have to be held on whether or not to repeal it.
- 30 4. **A responsive electoral system:** elect both Houses of Parliament using single transferable  
31 vote in multi-member constituencies (STV); unlike other electoral systems, STV gives the voter  
32 choice between candidates from a particular party, as well as choice between parties.
- 33 5. **A Constitutional Convention:** an independent convention to review how to improve the

# Saturday 13th

34 governance of the UK, including producing a written constitution, as set out in Policy Paper 83  
35 *For the People, By the People*; at least 51% of the Convention's membership would be made up  
36 of randomly selected members of the electorate, and the government would be required by  
37 law to co-operate with the Convention.

38 6. **An e-Democracy Centre:** to initiate and encourage the use of e-Democracy tools by  
39 individuals, communities and governments at all levels, funded by central government on a  
40 permanent basis

41 Due to the clear need for security when implementing such measures, conference reiterates its call for  
42 individual voter registration and resolves that submitting petitions in support of People's Bills and to  
43 veto legislation should be subject to the same level of scrutiny as nominating candidates for election.

*Applicability: Federal.*

*Note: there will be a separate vote on calls for 3 (lines 27–29).*

*Mover of motion: 7 minutes; all other speakers: 4 minutes.*

*For eligibility and procedure for speaking in this debate, see 'speaking at conference' on page 68.*

*For the procedure for submitting a request for a separate vote, see page 67.*

## 15.20 Speech

Chair: Cllr Ruth Polling (Vice Chair, Federal Conference Committee)

Aide: Catherine Bearder

### F4 **Speech by Jenny Willott MP, Liberal Democrat Shadow Secretary of State for Work and Pensions**

## 15.40 Policy Motion

Chair: Cllr Gareth Epps

Aide: Cllr James Gurling

### F5 **Security and Liberty in a Globalised World (Security Policy Paper)**

*Federal Policy Committee*

Mover: Edward Davey MP (Liberal Democrat Shadow Foreign Secretary)

Summation: Dr Julie Smith (Chair, Policy Working Group)

1 Conference believes that Britain, its partners and its allies, face current and future threats that in  
2 combination undermine global security, including climate change and increased natural disasters;  
3 energy security; access to food and water; infectious disease; population growth and migration;  
4 violence within states, including civil wars; tensions between states, particularly over resource  
5 depletion; proliferation of all types of armaments including nuclear weapons; organised cross-  
6 border crime; terrorism and aggressive ideologies.

# Saturday 13th

7 Conference believes that liberty must not be sacrificed on the altar of security and regrets the  
8 climate of fear that has been fostered by the approach of both Labour and the Conservatives to  
9 issues of domestic and international security.

10 Conference believes that liberty, justice and the separation of powers are essential to achieving  
11 lasting security and that abandoning liberties, particularly in the face of unconventional threats  
12 from criminals and terrorists, will only serve to make Britain both less free and less secure.

13 Conference endorses Policy Paper 86, *Security and Liberty in a Globalised World*, as a statement of Liberal  
14 Democrat policy to address these growing and diverse threats to Britain, its partners and allies.

15 Conference in particular believes that:

16 1. Working in cooperation with other states and international bodies is one of the key elements  
17 in ensuring Britain's security, and that Britain should therefore seek to work more effectively  
18 with its allies in the EU, NATO, the UN, the Commonwealth and other international bodies  
19 and respond to radical ideologies with a firm defence of democratic values combined with a  
20 willingness to engage in dialogue.

21 2. In order to provide the long-term framework within which democracy can grow and  
22 flourish across the world, Britain should promote, in partnership with like-minded states and  
23 governments, liberal and democratic values, including the rule of law, limited government,  
24 economic development with widely-dispersed ownership, education and civil society.

25 3. The British government should not compromise the underlying principles fundamental to  
26 society such as respect for human rights, the liberty of the individual and the rule of law in  
27 responding to threats to security; any emergency measures introduced to combat threats as  
28 they emerge should be clearly justified and limited in duration and application.

29 4. Rebuilding cohesive communities and reviving local democracy will be an effective defence  
30 against the fear and reality of crime, terror and natural disaster, including reversing the  
31 decline in local voluntary services and establishing a force of civilian reservists to rebuild local  
32 capabilities to cope with emergencies.

33 5. Achieving security for Britain will require action and reform at national, European and  
34 international level and that preventing conflict occurring is far preferable to intervention  
35 when crises have already emerged; and therefore supports:

36 a) The Responsibility to Protect principle: intervention for humanitarian reasons involving  
37 wide international participation under UN authority with reasonable and achievable aims  
38 and a clear and realistic exit strategy.

39 b) The development of EU capabilities for conflict prevention, conflict management, and  
40 post-conflict reconstruction, both civilian and military.

41 c) A more equitable system for financing EU and NATO operations where all members share  
42 the costs of operations.

43 d) Further integration of logistical support and defence procurement as the practical way to  
44 maintain effective capabilities without raising defence spending.

45 e) Support for Britain's continued commitment to Afghanistan, with priority to reconstruct  
46 viable institutions and the local and national economy.

# Saturday 13th

- 47 6. Climate change, significantly shaped by human activities, is the greatest threat to Britain's  
48 long-term security and therefore supports Liberal Democrat proposals to:
- 49 a) Provide UK leadership for an international framework that will enable each country to  
50 manage the transition to a low-carbon economy, including working for agreement on a  
51 more ambitious set of targets in the negotiations for the second commitment period of  
52 the Kyoto Protocol and beyond.
- 53 b) Help developing countries to mitigate and adapt to climate change, including working for  
54 the establishment of an International Leapfrog Fund to invest in low-carbon technologies,  
55 energy efficiency and renewable energy technologies in developing countries.
- 56 c) Develop a low-carbon economy in the UK and the world including introducing credible  
57 and predictable mechanisms for pricing carbon.
- 58 7. Proliferation of weapons, including nuclear weapons, presents a profound threat to security,  
59 and therefore, building on previous Liberal Democrat policy, including conference motion *The  
60 Future of Britain's Nuclear Deterrent* (March 2007), that Britain should:
- 61 a) Reinvigorate multilateral arms reduction talks, particularly in small arms, putting in place  
62 more rigorous monitoring of arms exports and licence applications, ending export credit  
63 guarantees and the use of public money to promote arms sales, and reviewing anti-  
64 bribery legislation to expose and prevent corruption in arms sales by British and British-  
65 based companies.
- 66 b) Support an international ban on landmines and encourage allies to negotiate, ratify and  
67 implement a ban on the use of all cluster munitions.
- 68 c) Fulfill its obligation under the Nuclear Non-Proliferation Treaty to negotiate in good faith  
69 towards nuclear disarmament through:
- 70 i) A major reduction of its nuclear arsenal by approximately 50%, retaining no more  
71 than 100 warheads, with each Trident submarine carrying no more than 24 warheads  
72 when on deterrence patrol.
- 73 ii) Announcing its willingness to renounce the Trident system and any successor by  
74 agreement at the 2010 Non-Proliferation Treaty review.
- 75 d) Place its nuclear deterrent under international inspection and work towards a joint  
76 negotiating position with France at the review conference.
- 77 8. Ensuring Britain's commitments are met both by effective strategic action and planning  
78 bringing together governmental security, defence, diplomatic, development and international  
79 environment decision-making structures supported by the appropriate balance of resources,  
80 including by:
- 81 a) Building on Britain's strengths in diplomacy as seen in the work of the Foreign and  
82 Commonwealth Office and bodies such as the British Council.
- 83 b) Creating a clear diplomatic and political strategy by which development assistance is  
84 managed.
- 85 c) Initiating a Strategic Security and Defence Review that would take in at least a 20-year  
86 perspective and include close consultation with the US and the UK's European partners.
- 87 d) Ring-fencing the elements of the MoD budget relating to forces' welfare, particularly to  
88 modernisation and maintenance of accommodation; a thorough review of personnel

89 policy should be integral to the investigations and conclusions of the new Strategic  
90 Security and Defence Review.

#### **F13 Private Finance Initiative Projects**

*Ten conference representatives*

Mover: Dr Vincent Cable MP (Liberal Democrat Shadow Chancellor of the Exchequer)  
Summation: To be announced

- 1 Conference notes that:
- 2 A. There are currently over 500 operational PFI projects in the United Kingdom, with a combined  
3 capital value of £44 billion.
- 4 B. The use of PFI has made many hospital and school building programmes possible, which  
5 may well otherwise have never been given the go-ahead by the current Labour and previous  
6 Conservative governments.
- 7 C. PFI projects have had a degree of success, with a recent survey showing that two-thirds of  
8 public sector respondents rated the performance of their service provider as either good or  
9 very good.
- 10 Conference, however, notes with concern that:
- 11 i) PFI has been used as a mechanism to keep spending off government accounts and not to  
12 provide best value to the taxpayer.
- 13 ii) There have been several high-profile PFI projects which have failed, such as the London  
14 Underground–Metronet partnership, which has left the taxpayer shouldering more than £2bn  
15 of debt.
- 16 iii) Despite the presence of a private provider the taxpayer in effect continues to underwrite a  
17 large proportion of the risks, leading to cases where, for example, councils continue to pay for  
18 schools which have been closed.
- 19 iv) There has been massive variance with the cost-effectiveness of PFI contracts with, for example,  
20 the cost to the taxpayer of fitting a plug socket varying from £30 to £300.
- 21 Conference calls on the Government to:
- 22 1. Only use private finance when it is shown that this can provide better value for money to the  
23 taxpayer than public finance.
- 24 2. Make public financing options more practical by:

# Sunday 14th

- 25 a) Opening up alternative financing options to local government, the Northern Irish and  
26 Welsh assemblies, and the Scottish Parliament, by allowing them to borrow for investment  
27 where public sector financing is the best value option, following similar fiscal rules to  
28 those already in place for central government.
- 29 b) Allowing public sector bodies to bid on equal terms whenever provision of a public  
30 contract is tendered to ensure increased competition and proper comparison of all  
31 options.
- 32 c) Improving independent monitoring and evaluation of public sector comparators before  
33 projects are undertaken and of outcomes when projects are under way.
- 34 3. Ensure that all aspects of PFI projects are recorded on government accounts.
- 35 4. Ensure that public sector organisations have the necessary skills and are adequately trained to  
36 be competent buyers, ensuring that they secure the taxpayer good value for money.
- 37 5. Include an annual value-for-money report of PFI projects within the National Audit Office's  
38 remit.

*Applicability: Federal or England only, depending on the particular service affected.*

*Mover of motion: 7 minutes; all other speakers: 4 minutes.*

Chair: Simon Hughes MP (President of the Liberal Democrats)  
Aide: Tessa Munt

### F14 Speech by the Leader of the Scottish Liberal Democrats

*The result of the election for the leader of the Scottish Liberal Democrats will be announced on 26 August.*

## 11.25 Policy Discussion

Chair: Baroness Barker  
Aide: Duncan Brack (Chair, Federal Conference Committee)

### F15 Social Mobility

*Current evidence suggests that social mobility is lower in the UK than in most other western democracies. The very high levels of child poverty are already deeply concerning, but the evidence of falling social mobility is particularly alarming because of the potential for a child's life chances to be determined – much more than in the 1950s or 1960s – by the circumstances of their birth.*

# Sunday 14th

Amongst other issues, the panel will be considering the following key questions:

- Why social mobility in Britain appears to have stalled and to what extent is it now lower than other countries.
- Have significant increases in public spending in recent years made measurable improvements to social mobility or are they likely to do so in the longer term?
- What are the potential benefits to wider British society of improved levels of social mobility?
- What policy changes would improve the ability of people from poor backgrounds to improve their life chances?

This session offers a chance to conference representatives to hear and participate in a panel discussion on these and other relevant questions.

Panellists will include:

- Martin Narey (Chief Executive, Barnardo's; Chair, Social Mobility Commission)
- Jenny Willott MP (Liberal Democrat Shadow Secretary of State for Work and Pensions)
- Claire Tyler (Chief Executive, Relate)

Presentations by the panellists will be followed by a chance for conference representatives to ask brief questions or make concise (maximum one-minute) interventions from the floor. Questions may also be emailed to [questions@libdems.org.uk](mailto:questions@libdems.org.uk) until 17.00 on Thursday 11th September. See 'question and answer sessions' on page 66 for further information.

## 12.40 Lunch

## 14.20 Policy Motion

Chair:           Iain Smith MSP  
Aide:            Cllr Gareth Epps

### F16 Centenary of the Basic State Pension

*Ten conference representatives*

Mover:           Jenny Willott MP (Liberal Democrat Shadow Secretary of State for Work and Pensions)  
Summation:     Lord Oakeshott of Seagrove Bay (Lords Spokesperson on Work and Pensions)

- 1 Conference notes that:
- 2 A. This year is the 100th anniversary of the decision by the Liberal Government of 1908, led by
- 3 H. H. Asquith, to introduce the first state pension to guarantee an income for those people
- 4 too old to work, a bold and progressive policy to deliver financial security for the poorest
- 5 pensioners.
- 6 B. In recent years, the state pension system has become overly complex and difficult to
- 7 understand with the introduction of proportional eligibility based on national insurance
- 8 contributions, the State Earnings-Related Pension Scheme, the State Second Pension, and the
- 9 mass means-testing of pensioners.

# Sunday 14th

10 C. Margaret Thatcher's Conservative Government broke the link between earnings and pensions  
11 in 1980, resulting in the diminishing value of pensions in relation to earnings.

12 Conference is concerned that:

- 13 i) Despite recent reforms, in 2018 around 2.6 million or 39% of women over pension age will still  
14 not be entitled to the full Basic State Pension compared to just over 400,000 men.  
15 ii) Pensioners no longer share in the proceeds of growth in Britain; the value of the Basic State  
16 Pension in comparison to average earnings is now lower than thirty years ago.  
17 iii) 2.2 million of today's pensioners live in poverty.  
18 iv) By 2010 55% of pensioners will be reliant on complex and intrusive means-tested benefits to  
19 make ends meet.  
20 v) An estimated 7 million people are not saving enough to provide them with an income they  
21 would consider sufficient in retirement.

22 Conference reaffirms the Liberal Democrat commitment to:

- 23 a) Deliver security and dignity in retirement for every citizen.  
24 b) Create a simple, coherent pension system which everyone can understand.  
25 c) Ensure the pension system is equitable and does not discriminate between men and women.  
26 d) Guarantee pensioners a defined income in retirement to make sure they benefit from every  
27 penny they save.

28 Conference therefore calls for:

- 29 1. The centenary of the state pension to be marked by the immediate reintroduction of the link  
30 between the Basic State Pension and earnings.  
31 2. The state to honour its responsibility to keep every pensioner out of poverty by moving  
32 towards the introduction of a Citizen's Pension, based on residency not contributions.  
33 3. The end of mass means-testing of pensioners, so that every working adult can have the  
34 confidence that they will receive the full benefit of additional provision that they make for  
35 themselves.

*Applicability: Federal.*

*Mover of motion: 5 minutes; all other speakers: 3 minutes.*

*For eligibility and procedure for speaking in this debate, see 'speaking at conference' on page 68.*

*For the procedure for submitting a request for a separate vote, see page 67.*

## 15.35 Policy Motion

Chair: Dee Doocey AM (London)

Sunday

### F18 Cutting Crime by Catching Criminals

*Ten conference representatives*

Mover: Brian Paddick

Summation: Chris Huhne MP (Liberal Democrat Shadow Home Secretary and Justice Minister)

- 1 Conference notes that:
- 2 i) There is widespread distrust of crime statistics.  
3 ii) Overall crime has fallen, but fear of crime remains high, with knife crime a key reason.  
4 iii) Fear has been fed by Labour and Tory competition on punishment.  
5 iv) The prison population has never been higher and is the highest in Europe.  
6 v) The average Crown Court custodial sentence is up from 22 to 25 months since 1996.  
7 vi) Prisons are colleges of crime where 92% of young men on short-term custodial sentences re-  
8 offend within two years.  
9 vii) The Government's own evidence demonstrates that sentence severity does not deter criminals,  
10 but detection does.  
11 viii) As few as one in a hundred crimes leads to a conviction in court.  
12 ix) There is widespread concern that police authorities lack the authority to stand up to Whitehall  
13 in setting local priorities and budgets.
- 14 Conference believes that:
- 15 A. Catching criminals through better policing and improved detection is more effective in cutting  
16 crime than posturing on penalties.  
17 B. The public should have more information about local crime and detection rates to hold the  
18 police to account.  
19 C. Elected police authorities should represent local communities in all their diversity, unlike the  
20 elected sheriffs proposed by the Tories.  
21 D. The effectiveness of police authorities should be recognised by scrapping Whitehall capping  
22 of budgets.  
23 E. Neighbourhood policing has proved effective in re-establishing community trust, gathering  
24 intelligence, and encouraging witnesses to come forward.  
25 F. The police are too tied up in red tape, hampered by centralised targets, and demoralised by  
26 failure to respect independent pay awards.  
27 G. Reoffending is best tackled by making prisoners work or learn to ensure that they are prepared  
28 for a life after crime.

# Sunday 14th

- 29 H. Policing and penal policy should be based on what works, not tabloid headlines.
- 30 Conference therefore calls for:
- 31 1. An extra 10,000 police officers on the streets, paid for by scrapping the ID card scheme, and the  
32 use of neighbourhood policing.
- 33 2. An end to centralised targets that distort local police priorities.
- 34 3. Police forces to be accountable to elected authorities, which are able to defend local priorities,  
35 set budgets and vary taxes where necessary:
- 36 a) Police authorities should be local councils where the borders are the same as those of  
37 police forces.
- 38 b) Where police forces straddle more than one council, two-thirds of the members of police  
39 authorities should be directly elected once every four years by the single transferable  
40 vote, and one-third of the members should be nominated by councils that are crime and  
41 disorder reduction partnerships in the force area.
- 42 c) Police authorities should co-opt extra members such as magistrates and others to ensure  
43 diversity, experience and expertise.
- 44 d) Chief Officers to be answerable for their force's performance.
- 45 4. Command units to be aligned with local councils (or two local councils where they are small)  
46 to ensure better partnership on crime reduction and disorder measures, an agreed plan, and  
47 accountability to local priorities.
- 48 5. Faith to be restored in crime figures by:
- 49 a) Placing them under the supervision of the Office of National Statistics.  
50 b) Publishing crime and detection rates at ward level.
- 51 6. A National Crime Reduction Agency to be charged with assessing and reporting on the  
52 effectiveness of policing and criminal justice measures.
- 53 7. The spreading of best practice such as hot-spot policing to boost detection rates to the  
54 standards of the best police units.
- 55 8. The Government to respect police pay awards from independent arbitration.
- 56 9. A significant reduction in unnecessary police paperwork, better use of voice-recognition  
57 technology and hand-held computers.
- 58 10. Greater discretion for Chief Officers in managing their force, in deciding key staff changes and  
59 in rewarding key specialisms.
- 60 11. Reform of the prison system so that:
- 61 a) All prisoners have access to education and training as a route into work.

# Sunday 14th

- 62            b) Prisoners with drug addictions and mental health problems are treated medically in more  
63            appropriate accommodation.
- 64            12. A reform of the criminal justice system, with four new elements:
- 65            a) New Community Justice Panels to be set up in every town and city to deal with anti-social  
66            behaviour and low-level criminality, so that offenders can pay back the community they  
67            have wronged.
- 68            b) National use of restorative justice programmes, in which criminals can face up to what  
69            they have done, apologise and agree to make amends to their victims.
- 70            c) Expand the use of specialist courts, notably drugs courts, so that judges can develop  
71            expertise in dealing with cases and vary requirements according to the offender's  
72            progress on rehabilitation.
- 73            d) A reinforced probation service to ensure that community sentences are enforced.

### **F20 Safe Standing at Football Matches**

*Chesham & Amersham, Aylesbury*  
Mover:            Peter Jones  
Summation:    Sharon Bowles MEP

1            Conference notes that:

# Sunday 14th

- 2 A. Since 1994 all football clubs in the Premiership and the Football League Championship have  
3 been required to provide all-seater accommodation.  
4 B. Model ground regulations recommended by the Premier and Football Leagues stipulate that  
5 standing in seated areas should be forbidden.  
6 C. A sizeable minority of supporters who wish to watch football whilst standing continue to  
7 stand in seated areas.  
8 D. Spectators standing in seated areas can create a number of hazards particularly for those  
9 seated around them.

10 Conference in particular notes that:

- 11 i) Standing in seating areas, and efforts to enforce the ban on it, is a significant cause of conflict  
12 between supporters, their clubs and the authorities.  
13 ii) Safe standing areas operate safely and successfully at many European grounds, notably in  
14 Germany.  
15 iii) Where customers have the choice to purchase tickets in either 'sitting' or 'standing' areas,  
16 the problem of seated spectators finding their views blocked by people standing is largely  
17 eliminated.  
18 iv) Outside the top two divisions of English league football safe standing areas are permitted.  
19 v) There is no recent evidence to suggest that standing spectators are any less safe at football  
20 matches than those who are seated.

21 Conference believes that the introduction of safe standing areas would:

- 22 a) Be extremely popular with supporters, both those who prefer to stand and those who (for  
23 whatever reasons including health or disability) prefer to sit.  
24 b) Provide choice and promote social inclusion in the national game.  
25 c) Positively assist the relationship between supporters and stewards by removing this area of  
26 potential conflict.  
27 d) Most importantly, be safe.

28 Conference therefore calls upon the Government to:

- 29 1. Replace any regulations requiring spectators to be seated with new regulations clearly setting  
30 out standards under which a safe standing area may be licensed.  
31 2. Direct the Football Licensing Authority to prepare suitable guidance under which domestic  
32 football clubs, working with their supporters, may introduce safe standing areas.

## 17.30 Policy Motion

# Sunday 14th

Chair: Catherine Bearder  
Aide: Arnie Gibbons

## F21 Deportation to States which Persecute on the Grounds of Sexuality and Gender Identity

*DELGA, Hackney*

Mover: Brian Stone  
Summation: Adrian Trett

- 1 Conferences notes:
- 2 a) A number of recent cases in which lesbians and gay men have been deported or threatened  
3 with deportation to countries, including Iran and Nigeria, where homosexuality is treated as a  
4 crime punishable by sentences including the death penalty.
- 5 b) That the British Government has argued it would be acceptable for a lesbian or gay person to  
6 be deported to a homophobic state, as long as that individual behaved in a 'discreet' manner.
- 7 c) That the UK is a signatory to the Convention against Torture and Other Cruel, Inhuman or  
8 Degrading Treatment or Punishment, which prohibits torture, and the transfer, return or  
9 expulsion of persons to countries where there are substantial grounds for believing that they  
10 would be in danger of being subjected to torture.

11 Conference reaffirms the commitment in the preamble to the Liberal Democrat constitution  
12 that our responsibility for justice and liberty cannot be confined by national boundaries; we are  
13 committed to fight poverty, oppression, hunger, ignorance, disease and aggression wherever they  
14 occur and to promote the free movement of ideas, people, goods and services.

15 Conference believes that:

- 16 1. Everyone should be treated equally under the Convention against Torture and Other Cruel,  
17 Inhuman or Degrading Treatment or Punishment, regardless of sexual orientation or gender  
18 identification.
- 19 2. The suggestion that individuals should behave 'discreetly' to guarantee protection from harm  
20 is, in the 21st century, an inappropriate message for the British Government to send to the  
21 countries concerned and their people.

22 Conference therefore calls on the Government to halt the deportation of people to countries where  
23 their sexual orientation or gender identification may mean that they are threatened with the risk of  
24 imprisonment, torture, or even execution.

*Applicability: Federal.*

### F22 Party Reform Commission

*This is a consultative session to allow conference representatives to discuss the recommendations of the Party Reform Commission. The session will open with a presentation by the Commission's Chair, Professor Chris Bones.*

*Any party member may speak in this session; speeches are limited to two minutes each. The session will follow the structure of the report of the Commission, together with an opportunity for members to comment on any issue which in their opinion should also have been included. Party members should indicate clearly which section they wish to speak on, using the normal speaker's cards; members may submit more than one card if they wish to speak on more than one section.*

Aide: Cllr Jon Ball

### F23 Extension of the Remit of the International Criminal Court

*North Somerset, North Wiltshire, Westminster*

Mover: Dr Brian Mathew  
Summation: Jo Hayes

- 1 Conference recalls:
- 2 A. The role played by the International Criminal Court in holding some rogue heads of
- 3 government and their associates to account for persecuting their populations, or sections of
- 4 their population, as in Bosnia.
- 5 B. The place of the Universal Declaration of Human Rights in outlining the rights that all humanity
- 6 should expect to be guaranteed by their own and other governments.
- 7 Conference notes with regret that:
- 8 i) A number of countries, including the United States of America, have not signed up to the
- 9 International Criminal Court.
- 10 ii) Not all members of the UN Security Council recognise the ICC, and it thus lacks an effective
- 11 implementation arm to bring rogue leaders to justice with the full weight of the Security
- 12 Council and the United Nations.
- 13 Conference believes that:
- 14 a) If the ICC was given both full UN recognition and an implementation arm, it would be able to
- 15 hold rogue heads of government and their associates to account for the persecution of their
- 16 populations, or sections of their populations, both where this has occurred or is currently

# Make it Happen

# Monday 15th

- 17 occurring; such powers would not only help stop mistreatment of civilian populations, but also  
18 help to deter and prevent such mistreatment in the future and deny the use of the excuse of  
19 'non -interference in internal affairs'.  
20 b) There is a serious need for the peoples of all countries to have such protection from their own  
21 governments, as has been demonstrated recently by the suppression of democracy in Burma  
22 and Zimbabwe.  
23 c) Had full UN recognition and empowerment of the ICC existed in the past, this could have led  
24 rogue heads of government and their associates to consider the consequences of their actions  
25 for themselves personally.  
26 d) The existence of a UN ICC holding such powers will promote peace and security by bringing  
27 individuals to justice rather than by necessitating the invasion of whole countries, as  
28 exemplified by the debacle in Iraq.

29 Conference calls for the UK Government:

- 30 1. To propose to the United Nations General Assembly a new international role for the ICC, in  
31 which it acts on behalf of the UN Security Council to help protect the human rights of all  
32 people, by holding currently serving heads of government and their associates to account for  
33 their actions, should they persecute their own populations and infringe on their human rights,  
34 as laid down in the Universal Declaration of Human Rights.  
35 2. To help fund and resource, with other UN nations, the ICC to enable it to carry out its new  
36 responsibilities.

*Applicability: Federal.*

# Monday 15th

- 1 Conference:
- 2 1. Supports the case for new housing to help meet the needs of developing communities and to  
3 enable those for whom house purchase is out of reach to find houses to rent or secure a stake  
4 in.
- 5 2. Believes that such housing should where possible be on brownfield land, and closely linked to  
6 existing settlements.
- 7 3. Opposes the development of new settlements in the green belt.
- 8 4. Also opposes the development of free-standing eco-towns.
- 9 5. Affirms that new developments should be subject to the local and democratically accountable  
10 planning system, not imposed by central government.
- 11 6. Asserts that the focus should be on making already planned and approved developments  
12 more environmentally and socially sustainable, rather than on superimposing new settlements  
13 in rural areas.
- 14 7. Believes that new housing in all settlements should be built:
- 15 a) Using locally available materials with low embedded energy.  
16 b) To high standards of insulation and with the most energy-efficient appliances.  
17 c) With full regard to the impact of additional house-building on flood plains and on other  
18 housing.  
19 d) With consideration to the impact of water demand, and incorporating low water use  
20 options and water recycling to the fullest extent possible.
- 21 8. Calls for a master planning process as adopted in some other European countries, with prior  
22 agreement of developers, communities and local authorities on sustainability objectives  
23 and their application in all stages of the development in ways which respect the needs and  
24 aspirations of new and emerging communities, who should be fully involved in the decision-  
25 making process.
- 26 9. Further calls for all new developments to be dependent to a much higher level on locally  
27 generated and renewable sources of both heat and electricity, with the necessary infrastructure  
28 (including district heating) provided for at design stage.

### F27 **Broadcasting Court Proceedings**

*Liberal Democrat Lawyers Association*

Mover: Jonathan Marks QC

Summation: To be announced

- 1 Conference believes that:
- 2 A. It is a cardinal principle of justice in a civilised society that justice must not only be done but  
3 must be seen to be done.
- 4 B. Open justice requires that unless there are powerful reasons to the contrary, for example in  
5 cases relating to the welfare of children, court cases should be heard in public.
- 6 C. The most effective way of ensuring that hearings are genuinely heard in public is by permitting  
7 television and radio broadcasting of court proceedings, subject to necessary safeguards, in  
8 addition to press reporting and the admission of members of the public to courtrooms.
- 9 D. Were the broadcasting of court proceedings to be permitted, that would be likely to have the  
10 beneficial effects of:
- 11 i) Contributing significantly to public understanding of the system of justice.  
12 ii) Better informing the public about individual cases and the reasons for court decisions.  
13 iii) Increasing public confidence in the justice system.  
14 iv) Improving public scrutiny of the justice system.  
15 v) Making courts more accessible to members of the public.  
16 vi) Enhancing the performance of advocates and judges.  
17 vii) Providing a considerable educational resource for young people and students.
- 18 E. Similar considerations should apply to public enquiries and proceedings before tribunals  
19 sitting in public.
- 20 Conference notes:

# Monday 15th

Monday

- 21 I. That Article 6 of the European Convention on Human Rights provides that: 'In the determination  
22 of his civil rights and obligations or of any criminal charge against him, everyone is entitled to  
23 a fair and public hearing within a reasonable time by an independent and impartial tribunal  
24 established by law.'
- 25 II. The imminence of the establishment of a Supreme Court for the United Kingdom.
- 26 III. The success of the broadcasting of proceedings in Parliament.
- 27 IV. The substantial success of the broadcasting of court proceedings in comparable common law  
28 jurisdictions, such as Scotland, Canada, Australia, New Zealand and the United States.
- 29 V. The increase in the number and importance of cases of judicial review, so that review of the  
30 actions of the executive by the courts is now an important part of the democratic process.
- 31 VI. The broad welcome given to the principle of broadcasting court proceedings in the  
32 consultation exercise conducted by the Department for Constitutional Affairs in 2005.
- 33 VII. That the Justice Secretary appears to have abandoned progress towards broadcasting court  
34 proceedings, except, possibly, in respect of the new Supreme Court.
- 35 VIII. That broadcasting of court proceedings, subject to appropriate safeguards, is supported in  
36 principle by Justice and the Bar Council.

37 Conference therefore calls upon the Government to:

- 38 1. Introduce and support legislation to repeal Section 41 of the Criminal Justice Act 1925, which  
39 has the effect of banning broadcasting of all court proceedings.
- 40 2. Permit television and radio broadcasting of court proceedings held in open court save where  
41 the interests of justice require otherwise.
- 42 3. Introduce Rules of Court to ensure that broadcasting does not prejudice the interests of justice,  
43 providing in particular:
- 44 a) That broadcasting will not, save in exceptional circumstances, be permitted in family  
45 cases, cases involving the welfare of children and cases involving sexual offences.
- 46 b) That pictures or recordings of jurors in criminal cases should not be broadcast.
- 47 c) That judges should have discretion to restrict the broadcasting of witnesses' evidence in  
48 appropriate cases.
- 49 d) That judges should be required to forbid broadcasting of evidence or argument where it  
50 is established that broadcasting would pose a threat to national security or to the safety  
51 of any person or property.
- 52 4. Make similar arrangements for the broadcasting of proceedings in public enquiries and before  
53 Tribunals in which proceedings are held in public.
- 54 5. Provide for a review of these arrangements for the broadcasting of court and other  
55 proceedings to be held after they have been operating for three years.

## Make it Happen

## 14.50 Policy Motion

Chair: Cllr Alan Sherwell  
Aide: Cllr Jon Ball

### F28 *Make it Happen* (Vision and Values Paper)

*Federal Policy Committee*

Mover: Danny Alexander MP (Vice Chair, Federal Policy Committee)  
Summation: To be announced

- 1 Conference believes that real change is needed in Britain to address the many problems facing  
2 ordinary people and families.
- 3 Conference believes that the core purpose of a Liberal Democrat government will be to create a  
4 fair society, where everyone gets real opportunities and chances in life, through taking power from  
5 Westminster and special interests and giving it to people and communities.
- 6 Conference notes that:
- 7 a) Labour and the Conservatives are so used to being in power every few years, they don't listen  
8 to people any more.  
9 b) Only the Liberal Democrats have the vision and substance to provide real solutions and make  
10 change happen. Labour can't. The Conservatives won't.
- 11 Conference resolves that our policy priorities must be:
- 12 1. Delivering big tax cuts for those who are struggling, an end to the unfair Council Tax, and  
13 extra investment in the poorest children from their first day at pre-school right through to  
14 university.  
15 2. Investing in clean energy instead of nuclear, and getting people out of their cars and into  
16 quality public transport.  
17 3. Introducing fairer elections in which every vote really counts, and ending the influence of big  
18 money in politics.  
19 4. Standing up for British freedoms, with a Freedom Law to get the government off people's  
20 backs, and new privacy protections for our personal data.
- 21 Conference therefore welcomes *Make it Happen* as a statement of the party's vision and values, and  
22 the basis for developing both the next General Election Manifesto and campaign messages for the  
23 remainder of this Parliament.

Chair: Arnie Gibbons  
Aide: Geoff Payne

### F32 A Response to the Housing and Mortgage Crisis

*Ten conference representatives*

Mover: Dr Vincent Cable MP (Liberal Democrat Shadow Chancellor of the Exchequer)  
Summation: To be announced

- 1 Conference notes that:
- 2 i) House prices have continually fallen since last autumn, with further falls predicted, putting  
3 millions of people into negative equity.
- 4 ii) 1 million households spend more than two-thirds of their income on housing according to a  
5 recent survey by Shelter.
- 6 iii) The number of repossessions and repossession claims have more than doubled in the last five  
7 years, reaching a 15-year high in 2007.
- 8 iv) Under this Government the social housing safety net has dwindled from 4.386 million social  
9 homes to rent in England in 1997 to just 3.936 million social homes in 2006 while the number of  
10 households on social housing waiting lists has risen almost 70% to 1.67 million and notes that  
11 the Local Government Association predicts that this could rise to 2 million households by 2010.
- 12 Conference supports the policies passed in conference motion *Homes for All* in spring 2008 to  
13 increase the supply of sustainable social and affordable housing.
- 14 Conference acknowledges:
- 15 a) The current dramatic falls in house prices are the result of an unsustainable bubble that  
16 formed in the housing market fuelled by irresponsible lending.
- 17 b) Throughout the period of unsustainable growth in the housing market the Government  
18 made no attempt to deal with the housing bubble, or to crack down on irresponsible levels of  
19 lending.

# Tuesday 16th

- 20 c) That while it is not the job of government to prevent house prices falling to a more affordable  
21 level, it is not in the interest of the economy as a whole if negative equity and repossession  
22 leads to large numbers of people becoming homeless and over-indebted.
- 23 Conference therefore calls on the Government to:
- 24 1. Allow councils and Registered Social Landlords to borrow against their assets to buy up unsold  
25 properties and sites from building companies in order to replenish the social housing stock, to  
26 deal with the current 1.67 million households on social housing waiting lists.
- 27 2. Introduce a statutory Code of Practice for mortgage lenders to ensure that repossession is the  
28 only ever the last resort – all borrowers in arrears should be offered:
- 29 a) Free independent financial advice.  
30 b) A chance to renegotiate the terms of their mortgage.  
31 c) An opportunity to sell equity in their home to a Registered Social Landlord (RSL) and  
32 become part-tenants of that landlord, dependent on meeting the requirements of the  
33 RSL.
- 34 3. Protect vulnerable homeowners against rogue doorstep companies by regulating the private  
35 'sale and leaseback' market as a financial service through the Financial Services Agency.

*Applicability: Federal, except 1 (lines 24–26) which is England and Wales.*

*Mover of motion: 7 minutes; all other speakers: 4 minutes.*

*For eligibility and procedure for speaking in this debate, see 'speaking at conference' on page 68.*

## F34 *Fast Track Britain: Building a Transport System for the 21st Century (Transport Policy Paper)*

Federal Policy Committee

Mover: Norman Baker MP (Liberal Democrat Shadow Secretary of State for Transport)

Summation: To be announced

1 Conference is committed to providing a transport system for the UK which meets the twin  
2 challenges of reducing the use of carbon and increasing capacity.

3 Conference believes the Liberal Democrats should be the champion of the passenger, through  
4 measures such as investing in public transport, providing access to information and creating a  
5 robust system of passenger representation.

6 Conference believes that the key principles which should guide transport policy are:

- 7 I. **Choice:** Citizens should be empowered by the transport network and the planning system to  
8 choose how often and by which modes they will travel, knowing what effect they will have on  
9 the environment.
- 10 II. **Fairness:** All individuals, whether in urban or rural areas, should have equality of opportunity  
11 to access transport options and should be charged for using the transport system according to  
12 the environmental damage caused by their choices.
- 13 III. **Freedom:** The transport system should enhance the ability for people to make the most  
14 of their lives, minimising negative impacts such as lack of access, pollution, and danger to  
15 personal safety.
- 16 IV. **Responsibility:** Transport must contribute positively to the UK, allowing all regions to become  
17 low-carbon, economically competitive, sustainable communities and contributing to Britain  
18 becoming carbon-neutral by 2050. Working together, the nations and regions of the UK can  
19 improve vital transport connections across the country.
- 20 V. **Quality:** The transport experience should be comfortable, efficient, reliable, affordable and  
21 environmentally sustainable.

22 Conference therefore endorses Policy Paper 85, *Fast Track Britain: Building a Transport System for the*  
23 *21st Century*, as a statement of the party's key policies for creating a vision for a modern, viable and  
24 accessible transport system. Conference particularly welcomes:

- 25 1. Proposals to build a national rail network fit for the demands of modern Britain, including:
  - 26 a) Commencing a priority programme for high speed rail immediately, to be rolled out over  
27 approximately 15 years, increasing the capacity and capabilities in England, Scotland and  
28 Wales of the UK rail network.
  - 29 b) Committing to full electrification of the network by 2050.
  - 30 c) Establishing rolling franchises for train operators with regular performance and passenger  
31 satisfaction targets, thereby encouraging investment in the rail network and improving  
32 standards.
  - 33 d) Introducing a rolling programme of rail expansion schemes in local areas including  
34 opening new lines.
- 35 2. Proposals to create a fair and sustainable deal for motorists, including:
  - 36 a) Introducing revenue-neutral motorway and trunk road pricing within ten years by:

# Tuesday 16th

- 37 i) In the first parliament creating viable alternatives to cars and reducing carbon  
38 emissions by investing in public transport. This investment would be funded through  
39 a national road pricing scheme for lorries (including foreign lorries) and a domestic  
40 surcharge to Aviation Duty (excluding lifeline flights). As an interim measure, more  
41 steeply graduated Vehicle Excise Duty would be introduced for new cars in order to  
42 encourage environmental efficiencies and reduce carbon emissions.
- 43 ii) In the second phase, reducing fuel duty and abolishing VED in order to introduce  
44 road pricing on motorways and trunk roads for all vehicles. This would be introduced  
45 across the UK after discussions with the Scottish Parliament and Welsh Assembly.
- 46 b) Increasing the graduation of the proposed 'showroom' tax on the purchase of new cars,  
47 reducing the cost of low-emission vehicles (bands A and B) by increasing the tax on the  
48 highest bands (bands F and G). Under our 'green tax switch' proposals, any additional  
49 revenue raised will be used to reduce taxes on income.
- 50 c) Creating an independent car parking regulator, protecting motorists through national  
51 standards on issues such as appeals procedures and safety.
- 52 d) Working with the EU to introduce mandatory average vehicle emissions targets and  
53 supporting UK research and development into low-carbon technologies.
- 54 3. Proposals to create a sustainable market for aviation, including:
- 55 a) Increasing Aviation Duty on domestic flights, excluding lifeline flights.
- 56 b) Including aviation in the UK and Intergovernmental Panel on Climate Change emissions  
57 inventories, and ensuring that the UK emissions target in the Climate Change Bill includes  
58 aviation and shipping.
- 59 4. Proposals to create a viable strategic vision for the UK's future transport system, including:
- 60 a) Setting up a Future Transport Fund to provide an investment stream for improvements  
61 to the public transport system. The Fund would invest in the UK-wide high speed rail  
62 network and also provide funding for the nations and regions of the UK to direct to their  
63 public transport priorities. The investment stream from the fund would be allocated in  
64 agreement with the Scottish Parliament and Welsh Assembly, reflecting the sources of  
65 income for the fund.
- 66 b) Substantially amending transport planning criteria to more accurately reflect the impact  
67 of different transport options on the environment and society.
- 68 c) Creating a Department for the Environment, Energy and Transport to enhance policy  
69 coordination.
- 70 5. Proposals to support local communities and localised transport, including:
- 71 a) Enhancing the powers of Integrated Transport Authorities and local authorities to control  
72 local bus matters.
- 73 b) Empowering local communities to find innovative solutions to their transport problems,  
74 including removing unnecessarily restrictive regulation and providing funding streams  
75 for community transport projects.
- 76 c) Ensuring all major public service changes take into account accessibility by transport as  
77 part of the planning process.
- 78 d) Introducing a Rural Transport Access Fund to support innovation in all modes of local  
79 transport.

# Tuesday 16th

- 80 e) Introducing a cycling 'Gold Standard' award for rail and bus stations that meet acceptable  
81 facility standards.
- 82 f) Using the planning system to reduce the need to travel, designing in low-travel, low-  
83 carbon living to all new developments.
- 84 g) Ensuring that volunteer drivers are not disadvantaged by Treasury regulations concerning  
85 the mileage they can charge before tax.
- 86 6. Proposals to encourage more sustainable methods of moving freight, including:
- 87 a) Ensuring good rail paths on key strategic freight corridors.
- 88 b) Facilitating the maximum use of inland and coastal waterways, including reinvigorating  
89 the Waterborne Freight Facilities Grant.
- 90 c) Encouraging research and development into low-carbon technologies for freight  
91 vehicles.

### F38 *Shaping Our World Through a Strong Europe (Europe Policy Paper)*

*Federal Policy Committee*

Mover: Sir Colin Budd (Chair, Policy Working Group)  
Summation: Edward Davey MP (Liberal Democrat Shadow Foreign Secretary)

- 1 Conference believes that:
- 2 I. The EU has achieved a great deal in the last 50 years and continues to do much to increase  
3 prosperity and promote freedom and democracy.
- 4 II. The EU needs to do more to put its own house in order to focus better on its core objectives  
5 and realise its full potential.
- 6 III. The EU provides the best available platform from which to respond to the challenges and  
7 exploit the opportunities of globalisation: the UK is far more secure within the EU.
- 8 IV. Labour and the Conservatives have taken a half-hearted approach to the UK's relationship  
9 with Europe, refusing to provide political leadership and undermining the UK's standing and  
10 influence within the EU.
- 11 Conference is committed to providing the sort of constructive engagement in Europe that is  
12 essential to protect and promote the UK's national interest, protect its citizens and further its  
13 influence in the world.
- 14 Conference therefore believes that the key principles which should guide Europe policy are:
- 15 A. Internationalism: the UK is stronger, more secure and influential on the global stage working  
16 with and through the EU.
- 17 B. The rule of law: the UK is better able to protect its citizens at home and abroad by working  
18 with and through the EU on issues such as cross-border crime, terrorism, rights in court and  
19 smuggling of arms or drugs.
- 20 C. Democracy and Human Rights: the EU is a powerful force for the spread of democratic  
21 institutions, defending and promoting human rights; it works to protect democracy and  
22 human rights within the existing Union and to promote and enhance them both in aspirant  
23 member states and throughout the world.
- 24 D. Protecting the environment: the UK is able to do more to effect positive change for the

# Tuesday 16th

25 environment by working with and through the EU, offering a powerful platform to lead the  
26 fight against climate change.  
27 E. Security, stability and prosperity: the EU is a major source of security, stability and prosperity in  
28 our continent and therefore for the British people; the UK has a strong interest in building on  
29 this success.

30 Conference therefore endorses Policy Paper 87, *Shaping Our World Through a Strong Europe*, as a  
31 statement of the party's key policies for creating a vision for the UK's European future. Conference  
32 particularly welcomes the proposals to:

33 1. Reform and strengthen common policies in order to bring about real change within the  
34 European Union, through whatever institutional framework is in place.

35 2. Provide vigorous support for the Agenda for Economic Reform, and for the completion of the  
36 Single Market, including:

- 37 a) Implementing the Services Directive and other internal market directives.
- 38 b) Eliminating obstacles to cross-border economic activity.
- 39 c) Continuing efforts to tackle tax fraud.
- 40 d) More effective application of public procurement rules, using light regulation and mutual  
41 recognition where possible.
- 42 e) Agreeing a code of best practice for Sovereign Wealth Fund investments.
- 43 f) More efficient use of EU Research and Development support.

44 3. Ensure a continuing focus of support on those regions, particularly in Central and Eastern  
45 Europe, that are economically well behind the rest of the EU.

46 4. Provide more accountability in budget-setting within the EU, including:

- 47 a) Linking the budget-setting cycles with the political cycles of the Commission and the  
48 European Parliament.
- 49 b) Giving local and regional authorities more say in the design of regional policy.

50 5. Push forward the subsidiarity agenda, including:

- 51 a) Continuing with the process of regulatory reform, making every effort to use sunset  
52 clauses, withdrawing unnecessary legislation, and ensuring that resources are focused on  
53 core functions.
- 54 b) Extending the role of the European Parliament in scrutinising the use of delegated  
55 powers and the implementation of EU law by the member states.

56 6. Ensure that the 2008/9 EU budget is restructured and better supports the EU's core activities,  
57 including reducing the volume and share of the budget expended on the Common  
58 Agricultural Policy.

59 7. Ensure greater cooperation in the area of Freedom, Security and Justice, including:

- 60 a) Strong UK backing for measures to tackle terrorism, fight international crime and achieve  
61 better justice for UK citizens within the EU.
- 62 b) Agreement at EU level on a set of minimum procedural safeguards when EU citizens

# Wednesday 19th

- 63 appear before a court in any member state, such as access to lawyers, legal aid, interpreters  
64 and proper recording of interviews.
- 65 c) The creation of minimum standards in EU asylum and immigration policy.  
66 d) Pursuing safeguards and privacy guarantees on the sharing of information and databases  
67 by EU bodies and member state agencies.
- 68 8. Take a more positive role in leading action at EU level to tackle climate change and ensure  
69 reliable energy supplies including:
- 70 a) Increasing the EU's target for reducing carbon emissions to 30% by 2020.  
71 b) Ensuring that EU policies play a greater role in building a low-carbon economy.  
72 c) Ensuring that there is an EU framework to tackle climate change, which assists national  
73 governments in introducing strong and effective measures.  
74 d) Promoting clean, low-carbon energy technologies, including supporting the EU target for  
75 20% of Europe's energy to come from renewable sources by 2020 and speeding up the  
76 development of carbon capture and storage.  
77 e) Strong measures to promote energy efficiency and energy saving.  
78 f) Developing a common EU energy policy, including the completion of an open and  
79 competitive European energy market, with a requirement for the supply and distribution  
80 of energy to be separated and working for a competitive global gas market.
- 81 9. Reform agricultural and fisheries policy within the EU, including:
- 82 a) Creating of a new Sustainable Land Use and Rural Development policy, to replace the  
83 current Common Agricultural Policy.  
84 b) Transferring 30% of agricultural expenditure into a rural development budget (with a  
85 focus on environment measures).  
86 c) Bringing forward the date for ending export subsidies from 2013 to 2010 – Intervention  
87 Boards should be abolished at the same time.  
88 d) Providing full support for sustainability criteria for biofuels, ensuring that no biofuels  
89 come from land cleared of natural habitats or fail to save 50% more carbon emissions in  
90 comparison to conventional fuels.  
91 e) Extensive devolution of responsibility and power to regional management bodies, which  
92 include representatives of fishermen and marine scientists.
- 93 10. Call for an 'ambitious, balanced and comprehensive agreement on the Doha Development  
94 Round' of world trade negotiations.
- 95 11. Provide for enlargement of the EU for countries willing and able to meet the requirements of  
96 membership, and provide support to those neighbouring states not on a trajectory to join the  
97 EU.
- 98 12. Give leadership from the UK on improved EU defence co-operation including on procurement,  
99 as well as encouraging more EU countries to participate in deployment and, if the Lisbon Treaty  
100 enters into force, through the new Structured Co-operation arrangements which have the  
101 potential to enable those EU countries willing and able to do so to participate in deployments  
102 which would facilitate more effective EU responses.

## **F42 Membership Subscriptions and Federal Levy**

Summation: To be announced

- 1 Conference notes that:
- 2 i) The Federal Executive is proposing that there be no change in the minimum, concessionary or
- 3 Youth and Student SAO and Freshers Fair subscription rates; the FE believes, however, that the
- 4 recommended subscription should rise in line with inflation from £48 to £50.
- 5 ii) The Federal Executive is proposing an increase in the Federal levy, so that more of the increased
- 6 income from subscriptions can be spent in the areas most in need of support in the 2009 local
- 7 elections.
- 8 iii) By raising the Federal Levy on membership renewal subscriptions from 42% to 44% additional
- 9 funding of approximately £50,000 will be available for the key council contests and most
- 10 marginal wards.
- 11 iv) English regional parties will not see their income reduced as a result of the proposed change
- 12 in levy even though the extra income will be redistributed to key council contests and most
- 13 marginal wards under the G8 process.
- 14 Conference resolves that for the year 2009:
- 15 1. Membership Subscription
- 16 a) The recommended subscription rate shall be £50.
- 17 b) The minimum subscription rate shall remain unchanged at £10.
- 18 c) The concessionary subscription rate for those in receipt of (or entitled to) state benefits
- 19 other than child benefit or state pension shall remain unchanged at £6.
- 20 d) The subscription for members paying through the Youth and Student SAO shall remain

- 21 unchanged at £6 or, where a new member joins at a Freshers Fair event, the special  
 22 introductory rate will remain unchanged at £1.  
 23 e) Nothing in this motion prevents a State Party from setting a recommended rate or rates  
 24 of subscription by its internal procedures which is/are higher than that agreed by the  
 25 Federal Conference.
- 26 2. Federal Levy
- 27 The Federal Levy on new members shall be 0% of the subscription paid and the Federal Levy

### F44 Equality and Fairness in Mental Health Provision

*Ten conference representatives*

Mover: Norman Lamb MP (Liberal Democrat Shadow Secretary of State for Health)  
Summation: To be announced

- 1 Conference notes that, despite funding for mental health services increasing by more than £1.5
- 2 billion since 1999, those experiencing mental health problems continue to suffer unacceptable
- 3 discrimination in terms of access to services and treatment.
  
- 4 In particular, conference notes that:
  - 5 i) Mental health has been estimated to cost the UK economy £48 billion every year in loss of
  - 6 output and cost of treatment.
  - 7 ii) Currently there is inequity in treatment between patients with physical health needs and
  - 8 those with mental health needs.
  - 9 iii) As a consequence of existing funding arrangements (waiting time targets and 'payment by
  - 10 results'), mental health trusts have suffered real term cuts in funding, resulting in services for
  - 11 some of the most vulnerable people being cut back.
  - 12 iv) There are high proportions of depression and anxiety disorder sufferers who are not in contact
  - 13 with services, whilst many children and adolescents with conduct disorders and eating
  - 14 disorders remain undiagnosed and untreated.
  - 15 v) There is a severe shortage of psychological therapists and family-oriented programmes which
  - 16 is compromising treatment and resulting in NICE guidelines on treatment not being met.
  - 17 vi) As a result of this, drugs are often unnecessarily prescribed to individuals who need therapeutic
  - 18 treatment, as therapy is not available.
  - 19 vii) Conditions in many inpatient mental health wards are completely unacceptable.
  - 20 viii) When people with mental health needs suffer physical health conditions, outcomes

# Wednesday 17th

- 21 are significantly worse than the average, producing dramatically shortened average life  
22 expectancy for this group.
- 23 ix) Many people suffering from mental health problems languish in prison without appropriate,  
24 effective treatment.
- 25 x) There are over a million people on incapacity benefit as a result of mental health needs who  
26 could be supported back into appropriate work but currently do not get access to therapies.
- 27 xi) Mixed-sex wards and mixed wards of adults and young people under 18 still exist in mental  
28 health hospitals, despite the risks to vulnerable patients.

29 Conference believes that the fundamental principles which the National Health Service must  
30 embrace and apply in the treatment of mental health needs are:

- 31 a) Equality: those with mental health needs should receive equal treatment from the NHS to  
32 those with physical needs.
- 33 b) Fairness: everyone should be entitled to a 'core package' of care.
- 34 c) Empowerment: individuals should be enabled to take control back over their own lives as far  
35 as possible.
- 36 d) Quality: individuals should be able to access high quality, appropriate treatment, delivered by  
37 highly trained professionals.

38 Conference condemns the existing discrimination within the NHS. Conference therefore calls for  
39 the following, to be funded within existing overall NHS budgets:

- 40 1. The introduction, in accordance with Policy Paper 84, *Empowerment, Fairness and Quality in*  
41 *Health Care* (2008), of an equal entitlement to treatment for all NHS patients; mental health  
42 service users would be entitled to treatment within 13 weeks by 2012, failing which they  
43 would be guaranteed access to treatment paid for privately by the NHS.
- 44 2. Personal care budgets to be granted to those patients who are able to make informed  
45 choices.
- 46 3. The introduction of the patient contract for those with mental health needs, as laid out in  
47 Policy Paper 84, *Empowerment, Fairness and Quality in Health Care*.
- 48 4. Independent Patient Advocates, providing information, guidance and support to both mental  
49 health patients and carers.
- 50 5. The ending of mixed sex wards in mental health units.
- 51 6. An absolute prohibition on anyone below the age of 18 being placed on an adult mental  
52 health ward.
- 53 7. Extra investment in clinician and practitioner capacity to ensure high-quality and effective  
54 services for both individuals and families.
- 55 8. Additional investment in mental health infrastructure in order to ensure appropriate and  
56 modern facilities for all patients.
- 57 9. The provision of extra capacity in mental health intensive care and forensic units to divert  
58 people in need of treatment away from prison and to assist those already in prison.
- 59 10. The application of the mental health guarantee standard to mentally ill prisoners.
- 60 11. The wider costs to the individual and the economy of mental health to be taken into  
61 consideration by NICE when deciding whether to licence new treatments, including mental  
62 health therapies.
- 63 12. The introduction of effective financial incentives for Job Centre Plus and the NHS to ensure the  
64 provision of treatment assisting those on incapacity benefit back into appropriate work.
- 65 13. Employment support providers to be given the right to commission services outside the NHS  
66 if an individual experiences long delays in accessing mental health treatment.

## 11.20 Policy Motion

Chair: Cllr James Gurling  
Aide: Catherine Bearder

### F47 Respect, Consent and Personal Data

*Ten conference representatives*

Mover: Baroness Walmsley  
Summation: Lord Razzall

- 1 Conference notes:
- 2 A. The collection of personal data by central government and the police forces on an  
3 unprecedented scale, including:
- 4 i) Large e-Governance projects (such as the Spine NHS central database and ContactPoint).  
5 ii) The National DNA Database (NDNAD), the largest such database in the world, and the  
6 National Fingerprint Database.  
7 iii) The implementation of the identity cards scheme.  
8 iv) The use of closed-circuit television (CCTV) cameras.
- 9 B. The demonstrable failure of the Government to keep these data securely, and in particular the  
10 loss of computer disks with sensitive data concerning 25 million child benefit claimants by HM  
11 Revenue and Customs in 2007.
- 12 C. The enforcement difficulties faced by the Information Commissioner's Office in terms of:
- 13 i) The powers available to ensure compliance with the Data Protection Act.  
14 ii) The financial resources available.
- 15 D. Those held on the NDNAD in perpetuity include:
- 16 i) Those arrested on suspicion of (not convicted or charged with) a criminal offence which  
17 may be as minor as dropping litter.  
18 ii) Over 300,000 children, including records for those under 10 years of age.  
19 iii) Disproportionate numbers of children from black and other ethnic minorities.
- 20 Therefore, conference confirms:
- 21 I. Its belief in the primacy of the right to privacy and informational self-autonomy, and the  
22 pivotal relationship between that right and the freedom and liberty of the individual.  
23 II. That while every step must be taken to detect crime and bring criminals to justice, in doing  
24 so the state must have sufficient regard for the individual right to privacy; any infringement  
25 of that right must be objectively justified and demonstrably proportionate to the benefits  
26 accrued to society at large.  
27 III. Its belief in the importance of the proportionate, responsible and secure use of new  
28 technologies, including centralised databases, for the effective management of public services,  
29 the fight against crime and research in the public interest.

# Wednesday 17th

30 IV. Its confidence in the Information Commissioner's Office as the critical component for the  
31 maintenance and enforcement of such a regime.

32 Conference therefore calls for:

33 1. Implementing the principle of consent: fully informing data subjects of any option to opt out  
34 of government databases and making participation rather than obligation the bedrock of  
35 future e-Government projects; this would include giving the right of those not convicted of  
36 any crime (except a violent or sexual offence) to have their data removed from the NDNAD.

37 2. Implementing the principle of respect: strengthening the Data Protection Act to ensure  
38 compliance with good data protection practice, including but not limited to:

- 39 a) Extensive civil penalties for serious breaches of data security.
- 40 b) Enhanced criminal offences for the negligent and reckless abuse of personal information.
- 41 c) The power to conduct spot checks on private companies, as well as public bodies.
- 42 d) Extending the definition of 'personal data' under the Act.

43 3. The provision of adequate funding for the Information Commissioner for the better  
44 maintenance of these two principles by abolishing the flat-rate charge currently levied against  
45 all data controllers irrespective of their size, profits and the amount of data held.

46 4. The immediate removal from the NDNAD of all DNA samples taken from children under 16, bar  
47 those convicted of either a violent or sexual offence.

48 5. The immediate amendment of legislation so as to provide that no profiles of children under  
49 the age of 16 may be stored on the NDNAD unless they have been convicted of a violent or  
50 sexual offence.

*Applicability: England and Wales.*

*Mover of motion: 5 minutes; all other speakers: 3 minutes.*

*For eligibility and procedure for speaking in this debate, see 'speaking at conference' on page 68.*

*For the procedure for submitting a request for a separate vote, see page 67.*

## Crèche

The crèche is located in the **Marriott Highcliff** and will be open at the following times:

Saturday	13th September	13.00 – 18.00
Sunday	14th September	08.30 – 18.30
Monday	15th September	08.30 – 18.30
Tuesday	16th September	08.30 – 18.30

\* Please note the closing time of the crèche on Wednesday 17th September is 13.30 (not 16.30 as

printed in the *Preliminary Agenda*) due to the earlier finishing time of the conference.

Lunch must be ordered and paid for daily. There will be a registration fee of £25 per child. For unwaged parents the fee is £10 per child. This covers the whole week from Saturday until the end of conference.

The Children Act 1991 strictly controls the ratio of staff to children in crèches, so the crèche staff are not allowed to accept children who are not pre-registered. (The deadline for this conference is Friday 15th August).

If you would like to receive information on the crèche for future conferences, please call the Conference Office on 020 7227 1350 and ask to be put on our mailing list. Forms are also available for download from the party website: [www.libdems.org.uk](http://www.libdems.org.uk).

## Daily Announcements and Advance Notice

An *Advance Notice* sheet will be published on Saturday. This will contain amendments to motions, urgent issues, emergency motions for debate or the ballot and questions to reports selected by the Conference Committee.

A *Daily Announcements* sheet will be published each day, Sunday to Wednesday, and will be available at the start of the morning session from the **Information Desk**. It will include last-minute changes to the order of business, movers, emergency motions etc.

Make sure you collect your *Advance Notice* and *Daily Announcements* sheets as the information they contain will always be vital to understanding the day's business.

## Documents for conference

If you registered **before 1st August**, conference documentation will be enclosed in the Final Agenda mailing in mid-August. ## Emergency motions

There are two slots at **F31** and **F43** reserved for emergency motion debates as described in standing orders: i.e. debates with a vote which make formal party policy like any other policy motion, but which refer to a development since the **9th July** deadline for motions.

Emergency motions must be signed by 10 voting representatives, or submitted by local parties, State Parties, Regional Parties in England, Federal Specified Associated Organisations or Federal Party Committees.

The deadline for emergency motions is **12.00 Tuesday 9th September**; they should be sent to the Policy Projects Team, preferably by email to **motions@libdems.org.uk**, or by post to 4 Cowley Street, London SW1P 3NB. A standard form is included in the Final Agenda mailing; if posting, please use this or a photocopy.

Emergency motions may be the subject of priority ballots among representatives. Ballot papers and the ballot box will be available at the **Speakers' Table** in the **Auditorium** of the **BIC**. The poll will be held, if

necessary, between 09.30 and 13.00 on Sunday 14th September. In the event that there is a simple choice between two motions, a vote will be held in the **Auditorium at 11.05 on Sunday 14th September**.

All emergency motions accepted for debate will be detailed in Saturday's *Advance Notice* sheet.

As an incentive to encourage new conference-goers, a special rate of £60 for full registration is now available to party members attending Bournemouth as their first Liberal Democrat conference. This is not cumulative with any other discount and the special rate is subject to confirmation of first-timer status.

### Day visitors - party members

Cost: £35; claimants: £19

Proof of current party membership, and of claimant status if appropriate, is required.

### Security and safety

## Speaking at conference

Only four categories of people are entitled to speak in a debate at conference:

- Elected voting representatives (or substitutes) who have paid their full registration fee for the conference (i.e. not day visitors).
- Non-voting members who have paid their registration fee for the full, weekend or weekday conference (i.e. not day visitors).
- Persons who are ex-officio representatives (e.g. Parliamentary Spokespersons).
- Persons who have been given permission to speak by the Conference Committee.

### **No other person may be called to speak in debates.**

Anyone who is entitled and wishes to speak must complete a speaker's card to speak in the debate. Cards can be obtained from the steward overseeing the block of seats in the **Auditorium** in which you are sitting, or from the **Information Desk** from Saturday morning. You must complete all sections of the card legibly.

Hand the completed card to a steward in the Auditorium before the beginning of the morning or afternoon in which the relevant debate occurs. If this is not possible, hand it in well in advance of the debate.

### **Lengths of speeches**

Lengths of speeches for each debate are shown after each motion. These times may be changed by Conference Committee or by the Chair of the session.

The speaker's rostrum in the Auditorium has three lights. The green light is switched on at the beginning of the speech. The amber light is switched on 60 seconds before the end of the speech. The red light is switched on when all the time is used up, and speeches must stop immediately. Duplicate lights will be visible to the audience on either side of the stage.

See also *interventions* on **page 65**.

## Stewards

The security team includes volunteer stewards who act under the direction of the Chief Steward, with advice from the local police, whose decision is final in any dispute regarding security.

## Training events

**Only party members** may attend training events. For entry to training events in the BIC you must show a valid conference photo pass. For entry to training events in the Connaught or other fringe hotels, a valid conference photo pass or party membership card must be shown.

## Transport and travel

For information on transport around and to Bournemouth, see **page 72**.

## Urgent issues

The slots at **F10** and **F30** have been reserved for an urgent issue discussion. Unlike other debates at Conference, this discussion will not make party policy, but is intended to allow conference representatives and spokespeople an opportunity to discuss and comment on a political issue live at the time of Conference, but where it might be premature to move to formal policy-making.

Suggestions for urgent issues may be submitted by any conference representative, and should be emailed to **urgentissues@libdems.org.uk** by **12.00 on Tuesday 9th September**.

The title of the issue should be no more than ten words, and should not include an expression of opinion. For example, 'The Chaos on the Railways' would be acceptable, 'The Chaos on the Railways can be solved by Renationalisation' would not. Emails should include full contact details of the submitter and may include up to 100 words explanatory background.

The urgent issue to be discussed is chosen by officers of the Federal Conference Committee and Federal Policy Committee. The person submitting an issue chosen for one of these slots will be expected to speak for five minutes to introduce the discussion. The relevant Parliamentary spokesperson will be invited to respond. At the end of the debate, a representative of the Federal Policy Committee will sum up the main points and suggest any further actions.

## Wheelchair users attending conference

In an effort to encourage participation at conference and in recognition of the significant extra costs that are incurred, we are operating a financial assistance scheme for wheelchair users at conference. This scheme aims to offset the extra cost of staying in a specially adapted disabled-friendly room in a larger hotel and to bring it in line with the cost of staying in a cheaper bed and breakfast establishment.

In particular, where developments which, in the opinion of the Committee, are of great importance have taken place after the closing date for emergency motions and questions to reports, the Committee may make time available for an additional emergency motion or for a statement to be made on behalf of the Party or for additional questions to be submitted to reports.

## **2. Consultative Sessions**

### **3.2 Motions for the amendment of the constitution or standing orders**

### **3.3 Circulation of the Preliminary Agenda**

The Preliminary Agenda, including the text of all motions selected for debate or included in a ballot, shall be circulated to those entitled to submit motions. Copies of motions not selected shall be available for inspection and will be supplied to any conference representative on payment of a copying charge and postage.

## **4. Selection of motions and amendments for both the Preliminary and Final Agendas**

### **4.1 Compositing or otherwise altering motions**

# Standing orders continued

## **4.3 Motions for the amendment of the constitution or standing orders**

The Committee may refuse to select a motion for amendment of the constitution or standing orders if, in their opinion, it is:

- a) Similar in effect to another motion which has been selected for debate or ballot at the same meeting of conference.
- b) Similar in effect to a motion that has been rejected at either of the last two meetings of conference.
- c) In the case of amendments to the constitution, incomplete in that it leaves unamended some other part of the constitution which contradicts the meaning of the amendment.
- d) In the case of amendments to standing orders, incomplete in that it leaves unamended some other part of standing orders which contradicts the meaning of the amendment.
- e) Ambiguous.

## **4.4 Topical motions**

The Committee may include any topical motion on the agenda. The Committee may announce, in the Preliminary and/or Final Agenda, that it has reserved time for a topical motion on a particular subject and invite submissions on that subject by the dates for the submission of topical motions and emergency motions, respectively, as specified in standing order 1.5 prior to the start of conference.

## **4.5 Emergency motions**

The Committee may reject an emergency motion if:

- a) It is similar in effect to another motion that has been selected for debate or ballot.
- b) It is similar in effect to a subject chosen for an urgent issue discussion.
- c) It is unclear as to its meaning or intent or, in the opinion of the Committee, too poorly drafted to provide a sensible basis for debate.
- d) It falls outside the definition of emergency motions.

No amendment shall be taken to any motion selected under this standing order.

## **4.6 Ballots for emergency motions**

All emergency motions, except those rejected under standing order 4.5, must be placed either on the agenda for debate or in a ballot for selection by conference. The Committee may hold separate ballots to select which of a range of emergency policy motions and which of a range of emergency business motions to debate. If one or more ballots is held the Committee shall circulate the text of all balloted motions to the representatives attending conference as soon as practicable and shall specify a closing time for the ballot. Following the counting of any ballots the Committee shall decide how many motions shall be debated in the time available.

## **4.7 Emergency amendments**

The Committee shall have complete discretion whether to select emergency amendments for debate, save that emergency amendments shall not be taken at spring conference.

## **4.8 Urgent issue discussions**

The choice of subjects for urgent issue discussions shall be made by the Officers of the Committee in consultation with

the Officers of the Federal Policy Committee. In choosing the subjects, the Officers shall have regard to the significance and topicality of the subjects proposed and whether they are likely to provoke a lively discussion.

## **4.9 Holding motions**

A policy or business motion which contains no substantive text at the time of its submission (a 'holding motion') may be submitted by the Federal Executive or Federal Policy Committee for consideration by the Committee. This includes policy motions intended to accompany policy papers yet to be published. The Committee may accept no more than two such motions from each committee on to the agenda for any autumn conference, and one such motion from each committee for any spring conference. In unusual circumstances, such as the conference immediately following a general election, the Committee shall have discretion to accept a higher number of holding motions. A full account of the reasons for the submission of all holding motions shall be included in the report to conference of the relevant committee.

## **5. The Final Agenda**

### **5.1 Drawing up the Final Agenda**

The Committee may, in drawing up the Final Agenda:

- a) Transfer any constitutional or standing order amendment from the ballot to the agenda for debate.
  - b) Remove a motion which was on the Preliminary Agenda.
- The Final Agenda shall be circulated to voting conference members as soon as practicable.

### **5.2 Balance between State and Federal policy debates**

The Committee shall, in drawing up the Final Agenda, have due regard to the balance of State and Federal policy debates and in particular shall as far as possible organise the agenda so that all matters which relate to one or more state parties but not all State Parties or the Federal Party shall be considered at either the beginning or the end of the conference.

## **6. Special meetings**

### **6.1 Timetabling of special meetings**

The Committee shall, as soon as practicable after the requisitioning of a special meeting of the conference, fix a date for the meeting, draw up a Preliminary Agenda and, if appropriate, specify a date for the submission of amendments. The Committee may, if necessary, proceed straight to a Final Agenda and set an appropriate deadline for amendments. The meeting shall deal only with the business stated in the notice of requisition save that the Committee may allow time for emergency motions and for business which is formal or, in its opinion, uncontroversial.

### **6.2 Preferred timescales for special meetings**

In setting dates for the submission of motions and amendments and giving notice thereof and of the conference itself the Committee shall endeavour to follow the timescales laid down elsewhere in these standing orders but, where this is not practicable, the Committee shall set such dates as it sees fit.

# Standing orders continued

## 7. Appeals

### 7.1 Appeals against rejection of motions

The Committee shall provide written reasoning to the nominee of the proposers for the rejection of any motion or amendment or the removal of any motion from the Preliminary Agenda. The proposers may appeal, in writing, to the next meeting of the Committee. Any such appeal shall provide reasons why, in the opinion of the proposers, the expressed reasons for rejection are not valid. If the appeal is allowed, the motion or amendment shall be treated as a topical or emergency motion or amendment according to the stage of the agenda-setting process at which the appeal has been allowed.

### 7.2 Appeals against exclusion from conference

Any person excluded from conference by a decision of the Chief Steward shall have the right of appeal to the Committee at the next of its regular meetings. The exclusion shall remain in force pending the appeal. If the person who is excluded is a voting member of conference, their local party or SAO shall be contacted immediately and invited to appoint a substitute for the remainder of the conference.

## 8. The chair

### 8.1 Who chairs conference

The President, if present, shall normally take the chair at the formal opening and closing of conference and when the Party Leader is making a formal speech from the platform. ### 9.2 Withdrawal of motions and amendments

Once the Committee has included a motion or amendment, or part of a motion or amendment, in the Final Agenda, it may not be withdrawn except by leave of conference.

### 9.3 The order of debate

The Committee shall direct the order of debate. Generally, however, a motion will be moved and immediately thereafter the amendments and options will be moved in the order directed by the Committee. There will then be a general debate. The movers of amendments and options (or their nominees) shall have the right of reply in the same order, after which the mover of the motion (or the mover's nominee) shall have the right of reply. Votes shall then be taken on the amendments and options in the order in which they have been moved and, finally, on the substantive motion. The Committee may direct that part

of any motion or amendment or groups or amendments may be the subject of a separate debate.

### 9.4 Urgent issue discussions

The Committee shall direct the order of the discussion. Normally the proposer of the subject shall speak first, and a representative of the Federal Policy Committee shall speak last.

Additionally the Committee may invite any person to address the conference as a guest.

### 9.6 The special rights of the Federal Committees

Provided that the Federal Policy Committee is not proposing the motion or any of the amendments to be taken in a debate on a policy motion or on motions relating to the policy-making processes of the Party it shall have the right to nominate a person to report its views on the subject before the conference. The Federal Executive shall have similar rights on business motions or motions to amend the constitution, as shall the Federal Conference Committee on motions relating to the proceeding and procedures of the conference and to amend standing orders. Such a person shall be called to speak for the same length of time as the person replying on behalf of the mover of the motion.

### 9.7 The selection of speakers

Voting and non-voting members wishing to speak in any debate shall submit a speaker's card, prior to the commencement of the debate in which they wish to speak, stating whether they wish to speak for or against an amendment, the motion or part of the motion. The chair shall be responsible for the choice of the speakers and shall attempt to provide a balanced debate between the different viewpoints in the conference, but may announce a departure from this rule if there is an overwhelming preponderance of members wishing to speak on the same side. The chair shall have the discretion to accept speakers' cards after the start of the debate. Save as provided for in these standing orders, no person may speak more than once in any debate.

### 9.8 The length of speeches

All speeches under this standing order shall be limited to two minutes. If conference decides not to debate the proposal, it falls.

- b) The chair may take the request to refer back at whatever stage of the debate they consider appropriate. If more than one request is received, the chair shall decide which to take. No more than one request may be taken with respect to any motion.
- c) When the request is to be taken, the chair shall read the statement of reasons and ask conference whether it wishes to consider the request to refer. If conference decides, by a simple majority of those voting, to do so, the person who made the request may speak and the mover of the substantive motion, or their nominee, may reply. The chair may allow other speakers. All speeches under this standing order shall be limited to two minutes. If conference decides not to debate the reference back, it falls.
- d) The reference back shall require a simple majority of those voting to be passed. A nominee of the Federal Policy Committee will speak and the mover of the substantive motion, or their nominee, may reply. The chair shall have discretion whether to allow other speakers on the request.
- c) The reference back shall require a simple majority of those voting to be passed. If it is carried the current agenda item shall be abandoned without any further debate or vote and, at the discretion of the chair, either the next agenda item

# Standing orders continued

- d) If passed, the Federal Policy Committee shall, before the next meeting of the conference, circulate its reasons for acting under this section and its comments on the motion and any amendments thereto accepted for debate.

## **12.4 Separate vote**

A voting member of conference may request that the chair take a separate vote on a part of a motion or amendment provided that such a request is in writing and received by the commencement of the first conference session on the day before the debate is scheduled. If the debate is scheduled for the first day of conference, the request must be received in writing by the same deadline as that for emergency motions. The Committee shall have complete discretion whether to take a separate vote. In exceptional circumstances, the Chair of the debate shall have discretion to accept a request for a separate vote if it is received in writing after this deadline.

## **12.5 Counted vote**

- c) No motion to suspend standing orders to introduce a motion or amendment on to the agenda can be taken unless the motion or amendment has been submitted to the Committee in accordance with the published timetable and, where a right of appeal against non-selection exists, the right has been exercised.
- d) The chair shall read the statement of purpose and, if the suspension is allowable in the terms of this standing order, ask the conference whether it wishes to debate the request for suspension. If the conference decides not to debate the request, it falls. If the conference decides, by a majority of those present and voting, to hear the request the mover may speak and a representative of the Committee may reply. The chair shall have the discretion to allow other speakers. All speeches on the motion to suspend standing orders will be limited to two minutes.
- e) A motion to suspend standing orders shall only be carried if

### **13.4 How questions and supplementary questions are put and answered**

After the report is moved, the mover, or their nominee, shall answer the questions in turn. After each question has been answered, the voting member who submitted the question will be given the opportunity to put a supplementary question, speaking for a maximum of two minutes, and the mover, or their nominee, will be given an opportunity to respond. The chair shall determine the time given to the mover in moving the report and replying to questions. The chair shall also determine how many of the published questions, and how many of the questions submitted under standing order 1.5 (f), can be taken. After the conference the Committee shall publish the answers to all questions submitted under standing orders 1.5 (e) and (f) which are in order, and to all supplementary questions asked.

### **13.5 Approval or rejection of reports from Federal Party committees or sub-committees**

Any report tabled by a Federal Party committee or sub-committee must be submitted for approval by the conference and must be voted upon accordingly. A voting member may move the rejection of any part of the report or of the report as a whole. A voting member wishing to move a rejection shall submit a speaker's card prior to the commencement of the consideration of the report, stating the section(s) which they wish to have rejected. All moves to reject a report must be debated (except that the chair shall have discretion to choose between moves to reject the same part of the report), at the conclusion of the question session. The person who made the request shall speak and the mover of the report, or their

A move not to receive a report must be debated (except that the chair shall have discretion to choose between more than one move not to receive the same report), at the conclusion of the question session. The person who made the request shall speak and the mover of the report, or their nominee, shall reply. The chair may allow other speakers, and shall determine the time given to all speakers.

# Time to Recycle

At *Coca-Cola* Great Britain we're working to be greener. Our vision is that our packaging is not seen as waste but as a valuable resource that can be used again and again.

In 2007 we redesigned our iconic glass bottle, reducing its weight by 20%. We've made our cans and plastic bottles lighter too and are increasing our use of recycled materials. Thanks to a new partnership with closed loop recycling, for the first time ever, we will be able to use recycled plastic which has been reprocessed here in the UK.

We're now recycling over 90% of our own factory waste and through innovative partnerships are helping people make recycling a part of their daily lives. Our 'talent from trash' programme encouraged football fans to recycle and our Recycling Zone programme, in partnership with wrap and recoup, is helping more people to recycle when they're out and about.

"We are trying to run our business in a way that protects and preserves our environment, which limits the environmental impact we have and increases the benefits we bring. We have a responsibility to use the power of our brands to inspire positive living by our consumers."

- Sanjay Guha, President of Coca-Cola Great Britain, May 2008.
