

The Commission on Presidential Debates is not impartial.

The Commission on Presidential Debates is comprised of business and political establishment leaders selected by their peers to preserve the status quo and protect elections from disruptions like Ron Paul, Gov. Gary Johnson and all others working to reform American politics.

It's like Coke and Pepsi Executives deciding which soft drink brands get to be on store shelves.

WE'RE SUING THEM FOR DEBATE FAIRNESS. JOIN US.

Help us take the Commission on Presidential Debates to court.
