

Resolution opposing bans and favoring the implementation of regulations as permitted under state law which allow for the cultivation, manufacture and distribution of marijuana

Submitted by Lanny Swerdlow
Riverside County Democratic Central Committee member

Whereas the people of the county of Riverside California voted in favor of legalizing marijuana which allows for the adult-use of marijuana for any reason,

And whereas states' laws have been passed which promote the merger of regulations for the medical and adult uses of marijuana providing for a robust and comprehensive implementation of marijuana legalization,

And whereas Riverside County and many cities in Riverside County have enacted bans against implementing regulations that would allow for the commercial cultivation, manufacture and distribution of marijuana as approved by the voters,

Therefore be it resolved, that the Riverside County Democratic Party encourages the county of Riverside and the cities within the county to cease banning and to enact ordinances regulating the commercial cultivation, manufacture and distribution of marijuana,

And therefore be it further resolved that the Riverside County Democratic party encourages Riverside county citizens to get involved with local Democratic clubs and with the Riverside County Democratic Central Committee to partner with local government officials to provide Riverside County citizens with safe, reliable, local and legal access to marijuana as permitted under voter-approved state law.
