

OUR PLAN

"National's clear plan is building a faster-growing economy with more jobs and rising incomes, helping families get ahead."

WORKING FOR NEW ZEALAND

New Zealand is in good shape and getting better. National is building a stronger, more prosperous country, where families can have a great lifestyle and earn a good income that compares well with the rest of the world.

RESPONSIBLY MANAGING THE GOVERNMENT'S FINANCES

Since entering Government, we've been working towards achieving a surplus and reducing debt. We're keeping spending under control to help us get there, while supporting families. We are on track to:

- Return the Government's books to surplus.
- Reduce Crown debt to 20 per cent of GDP by 2020.

BUILDING A MORE COMPETITIVE AND PRODUCTIVE ECONOMY

National is pressing ahead with our comprehensive Business Growth Agenda. This includes around 350 initiatives to help grow the economy, expand businesses, and create jobs in six critical areas. Our priorities are to:

- Build export markets.
- Build capital markets.
- Build innovation.
- Build skilled and safe workplaces.
- Build infrastructure.
- Build our natural resources.

DELIVERING BETTER PUBLIC SERVICES

We are helping families in areas such as welfare, education, and law and order. We're getting results, seeking new and better ways to deliver services, and continuing to get better value for money. We're working towards specific targets to:

- Lift student achievement across our education system.
- Reduce crime to help keep your family safe.
- Deliver better, sooner, more convenient healthcare.
- Ensure welfare is there for those who need it, while helping more people back into work.
- Better protect vulnerable children.
- Help more Kiwis into warmer, drier, affordable housing.

REBUILDING CHRISTCHURCH

Good progress is being made on the Christchurch rebuild with the Government contributing more than \$16 billion.

- ✓ 64,500 damaged homes have been repaired.
- ✓ Work has begun on the \$650 million redevelopment of Christchurch and Burwood hospitals.
- ✓ Over 200 buildings are underway or consented in the CBD.
- ✓ Construction is underway on numerous anchor projects, such as the Justice and Emergency Services Precinct, the Avon River Precinct, and the Bus Interchange.
