

New Yorkers *for* Clean, Livable & Safe Streets

We, the concerned residents and friends of New York City, support the efforts of NYCLASS to phase out horse-drawn carriages and replace them with 21<sup>st</sup> century electric replicas of vintage cars. This emission-free alternative is safe, sensible and humane. We support Intro 86 because it humanely retires the overworked horses and provides a viable alternative for eco-friendly tourism in New York City.  
We proudly add our names to the list of over 47,000 supporters calling to stop horse abuse once and for all!

***PLEASE PRINT CLEARLY SO WE CAN BE SURE TO COUNT YOUR SUPPORT!***
