No one gave me a chance of winning a seat on the County Board in 2012, but I spent countless hours knocking on thousands of doors and listening to the citizens of McHenry County. I simply out-worked my opponents, and I won that election. It's time to do it again. So let's put winter behind us, enjoy an afternoon together, and get ready for the next campaign. Your support will make all the difference. Thank you!
