Thank you Madame Chairman/President/Presiding Officer. I'm (XYour NameX), a volunteer for the National Draft Ben Carson for President Committee.

I hope you will go to www.runbenrun.org and sign the petition to encourage Dr. Carson to seek the Republican nomination in 2016. There are several reasons I ask you to join me and over 175,000 petition signers, asking him to run.

As you will read on the website, Dr. Carson is the best chance we have of defeating Hillary Clinton or any other Liberal that might end up with the Democratic nomination. He stands boldly on the issues, and he is the only GOP candidate who can unify our country. Thank you for this opportunity to speak with you. I hope you will visit www.runbenrun.org, and I look forward to fellowship after the formal part of this meeting.

Thank you Madame President, I'm (XYour NameX), a volunteer for the National Draft Ben Carson for President Committee. I hope you will go to our website, www.runbenrun.org, and sign the petition to encourage Dr. Carson to seek the Republican nomination in 2016. Dr. Carson has said that if the public is still clamoring for him to run, he would seriously consider it because he would never turn his back on his fellow citizens.

Like the Founding Fathers, Dr. Ben Carson believes that he should be called by us, the American people, before he is entitled to run. I am clamoring for him to run and I hope you will as well.

There are several reasons I ask you to join me and over 175,000 petition signers asking him to run. As you will read on the website, Dr. Carson is the best chance we have of defeating Hillary Clinton or any other Liberal that might end up with the
Democratic nomination. He stands boldly on the issues, and he is the only candidate of either party who can unify our country. I want him to run because (give your reason). If you saw the National Prayer Breakfast when Dr. Carson told the President to his face that ObamaCare is a disaster. I think you will agree that Carson has a Reaganesque quality which he uses to dispatch his opponents with a smile.

During Herman Cain's campaign, his internal polls showed him getting 60% of the black vote. This number was so high they never released it, and used 40% instead. While Herman Cain is a gifted communicator and brilliant businessman, Presidential Medal of Freedom winner, Dr. Ben Carson, is revered in the black community and will not be running against the first black president. I would guess he will get more than 40% against a white liberal; but, say that I'm wrong and Carson only gets 20% of the black vote against Hillary Clinton or any other Liberal that might end up with the Democratic nomination... They would still lose all of the swing states and Ben Carson wins. The first requirement when evaluating any candidacy is can the person win. Ben Carson can win without a doubt.

But being able to win is not good enough. The second question when evaluating a candidacy is should this person win, is he right on the issues. Not right because he changed everything he believed in just before a presidential contest. Ben Carson is right on the issues and he was right from the beginning. On life he doesn't just mouth pro-life platitudes, but he saves babies, raises money for crisis pregnancy centers across the country, and defends his medical colleagues' right to refuse to kill babies by abortion. He's right on taxes, on the budget, on immigration and on foreign policy, and of course, you know he devastated the President during the prayer breakfast on ObamaCare. Ben Carson is committed to restoring our Republic as one with a constitutionally limited government.

Finally, Ben Carson has the ability to emotionally bond with Americans of all colors, beliefs, and backgrounds. Our country is deeply divided deliberately by this administration and our
nation is in deep trouble. Ben Carson is the only one who can appeal across the board to convince the American people of the painful sacrifices necessary to balance the federal budget and heal our land. I'd like to end with this true story.

When the National Draft Ben Carson Committee Treasurer went to the bank to set up the accounts, the personal banker was excited. “You are drafting Dr. Ben Carson for President...you have my vote and my daughter’s vote.” Then her peer from the next cubicle, an immigrant from the Balkans, leaned over the divider and said in a heavy accent, “My daughter loves Ben Carson, we watched the movie with Cuba Gooding, Jr., Gifted Hands and she wanted to meet him.” Then he looked out on the horizon and said, “America is a great country. A great country deserves a great leader.”

I agree. Our great country deserves a great leader. I thank you for this opportunity to speak with you. I hope you will visit www.runbenrun.org and sign the petition; and I look forward to fellowship after the formal part of this meeting.

Thank you Madame President, I'm (Your Name), a volunteer for the National Draft Ben Carson for President Committee. I hope you will go to our website, www.runbenrun.org, and sign the petition to encourage Dr. Carson to seek the Republican nomination in 2016. Dr. Carson has said that if the public is still clamoring for him to run, he would seriously consider it because he would never turn his back on his fellow citizens. Like the Founding Fathers, Dr. Ben Carson believes that he should be called by us, the American people, before he is entitled to run. I am clamoring for him to run and I hope you will as well.

There are three reasons I ask you to join me and over 175,000 petition signers asking him to run.

1. **Ben Carson will win.** In fact, as I’ll explain, I really think he may be the only person who can defeat Hillary in 2016.
2. **Ben Carson will heal America.** Dr. Carson is uniquely gifted to heal America, to bring us together as one people. He is a uniter, not a divider like President Obama and Hillary Clinton.

3. **Ben Carson is a true conservative.** Lots of folks claim to be the next Ronald Reagan and to be torch bearers of his legacy, but Dr. Carson comes the closest of any candidate to filling that bill. Of course, no one is Ronald Reagan, but Dr. Carson has proven that he will gently, yet convincingly, stand up for the values that made America great.

Why am I so sure that Ben Carson will win, why do I believe he will heal America, and why do I believe he is a reliable conservative in the mold of Ronald Reagan?

Here’s why I believe Ben Carson will win. During Herman Cain's campaign, his internal polls showed him getting 60% of the black vote. This number was so high they never released it, and used 40% instead.

While Herman Cain is a gifted communicator and brilliant businessman, Presidential Medal of Freedom winner, Dr. Ben Carson, is revered in the black community and he will not be running against the first black president. I would guess he will get more than 40% against a white Liberal; but, say that I'm wrong and Carson only gets 20% of the black vote against Hillary Clinton or any other Liberal that might end up with the Democratic nomination... They would still lose all of the swing states and Ben Carson wins.

To put it precisely, if any Republican candidate for President receives just 17% of the national popular vote, no Democrat can win. That is a fact. But, a Carson candidacy is worse than that for the Democrats. His victory, by taking more than 20% of the black vote, would dismantle the Democrat coalition that was created in 1932 and that sustains the Democrats in power.
By shattering the Democrat’s stranglehold on the black vote, Dr. Carson would literally change the course of history. This is why the Democrats dread the candidacy of a black Republican more than any other candidate. They feared Herman Cain and they are terrified of Ben Carson. And, they should be.

The first requirement when evaluating any candidacy is can the person win. Ben Carson can win without a doubt. But, how will President Ben Carson heal America? Americans have never been this divided since the Civil War. Sadly, our President has pitted one group against another—black vs. white—young vs. old—employers vs. employees—men vs. women--simply for political gain. President Obama is a divider, not a uniter like Dr. Ben Carson. And, Hillary Clinton is no different.

Don’t forget that Hillary pushed for Hillarycare, a socialized medical plan that was even worse than ObamaCare, if you can believe it. While President Obama and Hillary Clinton seek to make as many people as possible dependent upon government assistance, Ben Carson wants to get them off welfare and into a job. Because he is a Christian gentleman and a healer, Ben Carson will unite us a one people. His career has not been that of a community organizer who seeks to drive people apart, but rather as one who seeks to heal and make people whole. Don’t forget that it was the last non-politician who was elected President of the United States, Dwight Eisenhower, who unified Americans and ushered in an era of extended peace and prosperity. And, by the way, it was Dwight Eisenhower who received 39% of the black vote.

But how, you might ask, can you be sure that Ben Carson is a real conservative? Well, if you have read his latest book, America the Beautiful, then you know the answer. Or, if you saw Dr. Carson speak at the National Prayer Breakfast, with the President and Vice President just a few feet away, you know of his courageous ability to speak truth to power.

Dr. Carson isn’t just a man of words; he is a man of action. On
the right-to-life issue he doesn't just mouth pro-life platitudes, but he saves babies, raises money for crisis pregnancy centers across the country, and defends his medical colleagues' refusal to kill babies by aborting them. Recently, Dr. Carson spoke at a major Republican event in Tennessee. After his speech a woman in the audience got up and told of her personal experience with Dr. Carson. She had problems with her pregnancy and other doctors counseled her to terminate her pregnancy, but Dr. Carson operated and allowed her to deliver her baby, a healthy baby.

At that National Prayer Breakfast, Dr. Carson said that his Bible tells him that proportionality is the fairest choice on taxes. He believes in a flat tax where everyone pays the same percentage, no matter how much or how little. Regarding the budget, he said that he would cut the federal budget 10% each year across the board until it is in balance. He told the President that he would repeal ObamaCare and replace it with Health Savings Accounts that are owned and controlled by each individual citizen, not the government. He's right on taxes, on the budget, on ObamaCare, on immigration and on foreign policy. Most important of all, Ben Carson is committed to restoring our Republic as one with a constitutionally limited government.

But, you may be asking yourself, will Ben Carson run for President? It certainly sounds that way to me. He told Greta Van Susteren on FOX News that he wasn’t ruling it out. He told Sean Hannity on his radio show that he was considering it. And, when asked about it by a New York Times reporter he said that if the American people keep clamoring for him, he will seriously consider it. He went on to say that he would never ignore the wishes of the American people. So, as I say, it sure sounds like he will run. That’s why I urge you to go to www.runbenrun.org and sign the petition urging Ben Carson to run.

You and I both know that our country is in real trouble. We are ignoring a national debt that could bankrupt our nation and
saddle our children and grandchildren with a terrible financial crisis that may last throughout their lifetime. We give lip service to our great Constitution, but our leaders continue to ignore it. Our President seems to have no respect for the rule of law or the Constitution whatsoever. And, while many Republicans in Washington are working hard to stop Obama, too many others seem incapable of standing up to the Obama onslaught. Respect for the United States is at its lowest ebb in our history. We are a divided people, and we are being taken to the cleaners by a corrupt Democratic Party. It’s the eleventh hour folks. What are we going to do?

I tell you what I’m going to do. I’m going to support the one man who can defeat Hillary Clinton or any other Liberal that might end up with the Democratic nomination, bring us together as one nation, and reverse the slide toward disaster that is sure to come. Ben Carson is the right candidate for our times. He is not a politician, he is positive, not bitter, he is a proud American, and he has traditional, commonsense solutions to our problems. He is the one man who can put this nation back on track to prosperity, traditional values, commonsense, and limited, constitutional government.

I do hope that you will go to our website www.runbenrun.org and that you will sign the petition urging Ben Carson to run for President. But, I hope that you will do much more than that. Get active, donate, get others to sign the petition, and actively work to elect Ben Carson President of the United States. And, don’t forget to pray for Dr. Carson and for our nation.

I’d like to end with this true story. When the National Draft Ben Carson Committee Treasurer went to the bank to set up the accounts, the personal banker was excited. “You are drafting Dr. Ben Carson for President...you have my vote and my daughter’s vote.” Then her peer from the next cube, an immigrant from the Balkans, leaned over the divider and said in a heavy accent, “My daughter loves Ben Carson, we watched the movie with Cuba Gooding, Jr., Gifted Hands and she wanted to meet him.” Then he looked out on the horizon and
said “America is a great country. A great country deserves a great leader.”

I agree. Our great country deserves a great leader. Thank you for giving me the opportunity to speak with you today. It has been a privilege and a pleasure. Don’t forget to visit our website, www.runbenrun.org. And when you do, be sure and read some of the tens of thousands of “clamorings” urging Ben Carson to run for President. They are very inspiring. And, if you want Ben Carson as your next President, I urge you to make a donation to the National Draft Ben Carson for President Committee.
