

Don't lose your Green Party MEP in the South East.

You made history by electing **Caroline Lucas** as the UK's first Green Party MEP. Since then, she has made a *real* difference.

The European Elections are held under proportional representation, giving the Green Party a real chance to win more seats.

Greens need 7.6% of the vote to hold onto one seat in the South East - and with just 14%, we could win two seats. So every single vote counts.

Your vote can *make the difference* and help keep your strong Green voice in the European Parliament.

**Vote Green
on June 4th.**

What do other people say about Caroline Lucas?

“Caroline Lucas is a tireless campaigner in the European Parliament, staunchly defending human rights, and strongly promoting greater protection for animals. I urge you to cast a positive vote for a better future by voting Green in the European Elections.”
JOANNA LUMLEY, OBE
ACTRESS

“She is intensely disliked by EU commissioners and much of big industry after drafting laws to force airlines to pay the true costs of flying, forcing a legal investigation into nuclear power, taking on chemical companies and harrassing the Commission at every opportunity on trade, GM crops, globalisation and animal diseases.”
GUARDIAN, TOP 50 ECO-HEROES
