Front—Bird facing toward you

Bird facing away from you

Back-

COLOR OF BANDS

- Note that most birds will not have all 4 bands!
- The color-banded species are Dark-eyed Juncos, Chestnut-backed Chickadees, and Song Sparrows. Please also list any other aluminum-banded species you see. All birds have a single aluminum band on the right leg.

Location	Date	Time	Species	L1 color	L2 color	R3 color	R4 color	Notes

Questions or return forms to Scott Harris (scott@sitkawild.org, 738-4091) or the Sitka Conservation Society (747-7509)
