

SolarCitizens

Protect the RET!

Australians love renewable energy. The Renewable Energy Target has already helped 3.5 million Australians install solar, take back control of their power bills and do their bit for the environment. Millions more want to do the same.

Mr Abbott, Australians want more renewable energy - not less. **Please extend and expand the Renewable Energy Target.**

First Name	Surname	Street Address	Post-code	Email	Phone	Tick in this box if you want to volunteer	Tick in this box to opt out of updates

More information available @ solarcitizens.org.au.

To make sure these new Solar Citizens can have their names added to the petition, please transcribe these details into Excel and send to info@solarcitizens.org.au. Or send us an email at info@solarcitizens.org.au for an Excel template you can transcribe into. THANK YOU!
