

# Take a stand to stop kicking the can!

If you walk, run, bike, drive or take public transportation to get around in Massachusetts, you want to be on the State House Steps for this event. Join fellow Bay State residents to urge our decision-makers to create dedicated transportation funding that will be enough to fix our roads and bridges, stave off fare hikes and service cuts, invest in transportation services for youth, seniors and the disabled,

create bike paths and sidewalks across the state, maintain the transportation system that we have, and modernize for the future.

Get inspired by speakers from across MA who all want and need more transportation funding. Then drop off letters and talk with your legislators about supporting more funding. The time is now for transportation in MA and the day to be heard is April 2nd.

**When:** April 2<sup>nd</sup>, 10am–1pm  
**Where:** State House steps  
**Who:** You!

## Big Delays Come in Small Packages

Massachusetts needs a transportation package that's sufficient for our needs.
