FEATURING OUR WALMART LEADER SANDRA CARPENTER

Sam Walton's daughter Alice, the heiress to the Walmart fortune,  
is the tenth richest person in America, and 21st richest in the world.

Alice Walton is opening a new \$1.2 billion art museum (funded by the Walton Family Foundation) while in  
the past year Walmart has cut profit sharing and healthcare for its workers,  
and hours and staff in many of its stores.

Walmart Associates are the life-blood of Walmart, and yet they are not treated with respect.

Workers have formed an organization, OUR Walmart: Organization United for Respect at  
Walmart, to stand up for their rights at the world's largest private employer.
