

# 2013 Candidate Questionnaire

## OVERVIEW

For New York City to compete in the global economy and provide the safety and quality of life New Yorkers deserve, our leaders must embrace a 21st Century vision for our streets that puts well-being of people first. StreetsPAC supports candidates for public office who will champion safe, complete and livable streets.

**Safe Streets** are safe enough for children, seniors, and people of all abilities to travel without fear of death or injury. Despite recent gains, our streets remain unsafe:

- Motor vehicle crashes are the leading cause of preventable death in New York City; crash fatalities increased 12% in 2012 compared to 2011, and hit-and-run fatalities increased by 31% from 2010 to 2012.
- Although speeding is the top factor in NYC traffic deaths, police rarely enforce speeding laws on neighborhood streets, and prosecutors rarely pursue charges against sober drivers who kill.

To foster safe streets, StreetsPAC supports speed cameras and other enforcement strategies as well as changes in roadway design, which are proven to calm traffic.

**Complete Streets** encourage mobility and health by allocating space for walking, public transportation, bicycling and wheelchair access, and by prioritizing curbside access for taxis, delivery trucks and passenger loading over the underpriced curbside parking that now makes such uses difficult or impossible. For example:

- Select Bus Service using dedicated bus lanes has been an unqualified success, reducing travel times by 20% and increasing ridership.
- Increased bicycle lanes have made cycling for everyday transportation a viable option for thousands of New Yorkers. Protected lanes have been proven to reduce crash injuries among bicyclists, walkers and drivers by approximately 40%.
- Countdown clocks, sidewalk extensions and landscaped pedestrian safety islands make walking more pleasant and efficient.

StreetsPAC supports improving the quality and variety of transportation choices to improve personal mobility and build a more sustainable transportation system of complete streets.

**Livable Streets** are comfortable and welcoming to local residents and visitors and attract patrons to shops, restaurants, hotels and other local businesses. New Yorkers want to live, work and shop on livable, economically vital streets. Research shows:

- Pedestrian plazas, bike lanes, play streets and other amenities dramatically increase retail property values, and significantly raise other commercial and residential property values.
- The reduction and elimination of motor vehicle traffic on Broadway from Columbus Circle to Union Square has created a mecca for tourists as well as internet-based and other new-economy businesses.

StreetsPAC supports repurposing street space for the use of people to promote livable streets where commerce and community life can thrive.

Process and Deadlines. StreetsPAC is a political action committee registered with the New York State and New York City Board of Elections. This questionnaire seeks to elicit your views on the important issues facing New York City's streets. Your answers will help inform StreetsPAC endorsement and donation policy in the 2013 election.

All responses should be considered public, although StreetsPAC may at its discretion choose to disclose some, all or none of your responses. Responses may be shortened for publication. StreetsPAC may also disclose which candidates do not respond to this questionnaire. If you refer in your response to a position paper or your Web site, please specify the exact text you are referencing. By responding to this questionnaire, you give your agreement to the foregoing uses of your responses.

The StreetsPAC Advisory Board may ask to interview candidates submitting questionnaire responses.

## POLICY PROPOSALS

**In a separate document, please articulate concrete and feasible policy and budgetary proposals to advance the following goals:**

### Safe Streets

- 1.Reducing the number of motor-vehicle crashes and conflicts among street users with appropriate infrastructure or roadway design changes, automated traffic law enforcement, or street- or neighborhood-specific changes in traffic rules

**Policy Postion: All motor vehicles should be manufactured to go no more than 65 miles an hours. On designated roadways where pedestrian traffic is frequent, calm devices should be installed to curtail motor-vehicle crashes and conflicts among street users.**

- 2.Ensuring thorough investigation of, and appropriate consequences for, drivers who commit traffic offenses that result in injury or death

**Policy Postion: Stiff penalties and fines should be imposed.**

### Complete Streets

- 3.Encouraging New Yorkers to use public transit, walk or bicycle within the city, instead of driving

**Policy Postion: Lowering the cost of MTA transit to encourage more mass transit. Increase more Transit bus service across town in select odd and even streets in Manhattan, limiting cars, taxis service and commercial vehicle from 7a to 10am during the height of rush hour traffic.**

Repurposing street space to better meet transportation needs (please specify particular streets) In the Bronx

**Policy Postion: No cars should be allowed to park along Amsterdam Avenue and 125<sup>th</sup> Street to 125<sup>th</sup> Street and 1<sup>st</sup> Avenue. More curbside seating and bench should be constructed into increase foot traffic instead.**

## Livable Streets

4. Increasing the amount of public space for non-transportation use, such as plazas and street closure programs (e.g., Summer Streets and play streets.)

**Policy Postion: The city need to create more uban meeting place where consumers can gather and requesting permits to create summer and play streets should not be a daunting task.**

5. Harmonizing commercial and residential uses through licensing and regulation of trucking, deliveries, parking, street vending, greenmarkets, and other commercial activity affecting our streets

**Policy Postion: All deliveries should be made prior to early morning and after evening rush hour cylces. All cars, taxis service and commercial vehicle from 7a to 10am during the height of rush hour traffic should prohibited to make way for increase foot traffic and bicyclists.**
