

2013 Candidate Questionnaire

OVERVIEW

For New York City to compete in the global economy and provide the safety and quality of life New Yorkers deserve, our leaders must embrace a 21st Century vision for our streets that puts well-being of people first. Streets PAC supports candidates for public office who will champion safe, complete and livable streets.

Safe Streets are safe enough for children, seniors, and people of all abilities to travel without fear of death or injury. Despite recent gains, our streets remain unsafe:

- Motor vehicle crashes are the leading cause of preventable death in New York City; crash fatalities increased 12% in 2012 compared to 2011, and hit-and-run fatalities increased by 31% from 2010 to 2012.
- Although speeding is the top factor in NYC traffic deaths, police rarely enforce speeding laws on neighborhood streets, and prosecutors rarely pursue charges against sober drivers who kill.

To foster safe streets, Streets PAC supports speed cameras and other enforcement strategies as well as changes in roadway design, which are proven to calm traffic.

Complete Streets encourage mobility and health by allocating space for walking, public transportation, bicycling and wheelchair access, and by prioritizing curbside access for taxis, delivery trucks and passenger loading over the underpriced curbside parking that now makes such uses difficult or impossible. For example:

- Select Bus Service using dedicated bus lanes has been an unqualified success, reducing travel times by 20% and increasing ridership.
- Increased bicycle lanes have made cycling for everyday transportation a viable option for thousands of New Yorkers. Protected lanes have been proven to reduce crash injuries among bicyclists, walkers and drivers by approximately 40%.
- Countdown clocks, sidewalk extensions and landscaped pedestrian safety islands make walking more pleasant and efficient.

Streets PAC supports improving the quality and variety of transportation choices to improve personal mobility and build a more sustainable transportation system of complete streets.

Livable Streets are comfortable and welcoming to local residents and visitors and attract patrons to shops, restaurants, hotels and other local businesses. New Yorkers want to live, work and shop on livable, economically vital streets. Research shows:

- Pedestrian plazas, bike lanes, play streets and other amenities dramatically increase retail property values, and significantly raise other commercial and residential property values.
- The reduction and elimination of motor vehicle traffic on Broadway from Columbus Circle to Union Square has created a mecca for tourists as well as internet-based and other new-economy businesses.

Streets PAC supports repurposing street space for the use of people to promote livable streets where commerce and community life can thrive.

Process and Deadlines. Streets PAC is a political action committee registered with the New York State and New York City Board of Elections. This questionnaire seeks to elicit your views on the important issues facing New York City's streets. Your answers will help inform Streets PAC endorsement and donation policy in the 2013 election.

All responses should be considered public, although Streets PAC may at its discretion choose to disclose some, all or none of your responses. Responses may be shortened for publication. Streets PAC may also disclose which candidates do not respond to this questionnaire. If you refer in your response to a position paper or you're Web site, please specify the exact text you are referencing. By responding to this questionnaire, you give your agreement to the foregoing uses of your responses.

The Streets PAC Advisory Board may ask to interview candidates submitting questionnaire responses.

Please submit questionnaire responses by May 24 via e-mail to: info@StreetsPAC.org
