

Nagambie Needs an Ambulance – Add Your Voice

A permanent ambulance presence is needed in Nagambie.

With the town's growing population, its prominence as a tourist destination and the large number of events it hosts annually, it is vital that the Andrews Labor Government funds a permanent ambulance service for the town.

While Nagambie has been serviced by a dedicated community emergency response team of volunteers who have done an outstanding job, this interim measure was designed to precede a dedicated ambulance service.

Add your voice to the fight and make it clear to the Andrews Labor Government that Nagambie needs an ambulance and we won't go away until we get one.
