

A Thought for Your Pennies

Help the Toronto Environmental Alliance (TEA) collect 2.5 million pennies - one for every Torontonionian.

Your pennies will help build a greener City for all of us!

On March 22nd 2012, Stephen Harper told Canadians the penny is going. **He also told us important environmental programs and laws must be sacrificed, all in the name of economic prosperity.**

In the past, your pennies helped TEA educate politicians about how wrong Stephen Harper is about the environment and the economy. In January, we convinced councillors to stop cuts to important environmental programs in the city's 2012 budget. They acknowledged that a healthy environment is the cornerstone of economic prosperity.

But so much more needs to be done to convince politicians that harming the environment helps no one. That's why we need your pennies before they're gone.

Let TEA take your pennies off your hands, and you'll be helping us do the work of advocating for good environmental policy in Toronto.

Our goal is to collect 2.5 million pennies, one for each Torontonionian.

We promise that each penny will be used to help build a greener Toronto for all of us.

_____ has generously offered to let our donors drop their pennies off at this location. Just leave them here, and we'll take care of the rest!
