

Our Vision for a Better Queensland

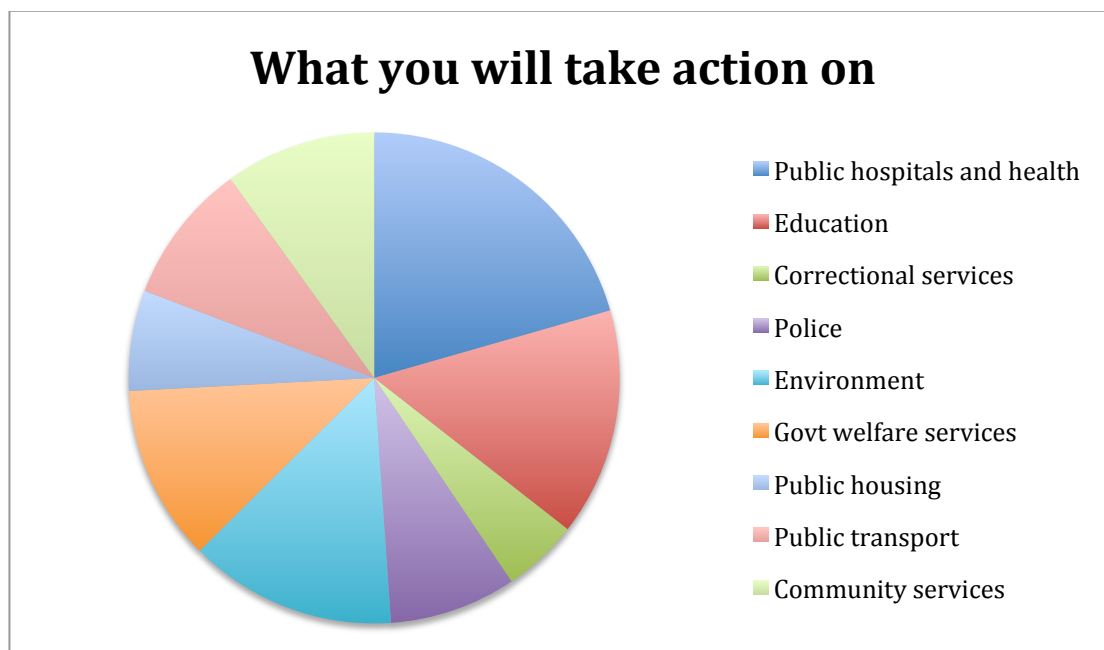

Working for Queenslanders asked you what is important for a better Queensland. Two and half thousand Queenslanders told us that there is no choosing: all our services are important!

- Public hospitals and health
- Education
- Correctional services
- Police
- Environment
- Government welfare services like child protection and disability services,
- Public housing
- Public transport
- Community services.

The message is clear: you expect governments to look out for people and provide services and you will take action to support this!

We asked you what you will campaign on and you told us the key priorities are:

- Public hospitals/health,
- Education, and
- A protected environment.

**You helped to set the direction for our movement for a better Queensland,
Now endorse [Our Purpose](#), which you helped create!**
