March Against Fascism

Don't let the haters win

Fascist and racist groups, like the English Defence League (EDL), Scottish Defence League (SDL) and the BNP are a stain on our society. They peddle their hate to undermine community harmony and foster division.

Our message is clear; those that peddle hate are not welcome here. Griffin must go!

The BNP leader, Nick Griffin exploits people's fears and hardships to whip up racial and cultural tension in a shameless bid to divide us. Don't let him win. Let's make sure that Griffin doesn't stand a chance in his battle to be re-elected MEP for the North West in 2014.

But instead of standing up for communities, David Cameron's government is stirring up more fear. Its 'Go Home' racist vans which were piloted in some of London's poorest and most ethnically diverse areas are reminiscent of the National Front's racist graffiti in the 1970s. Shame on you Mr Cameron.

Strong communities are safe communities – so let's stand together to say NO to hatred on our streets.
