

God is still speaking,

UNITED CHURCH AIDS/HIV NETWORK

The HIV and AIDS E-communication from the United Church of Christ HIV and AIDS Network (UCAN) – Office for HIV and AIDS Ministries, Health and Wholeness Advocacy – Wider Church Ministries, United Church of Christ. www.ucc.org/hiv aids

Feb. 26, 2007

Welcome to the new HIV and AIDS e-newsletter, *UCAN Stop AIDS E-News* published by the United Christ of Christ HIV and AIDS network (UCAN). We are excited about the possibilities that come with communicating with you in this new way and invite you to subscribe. Through this e-newsletter we will be able to share with you and others who are equally passionate about HIV and AIDS related issues, what our office is doing and what our UCAN and Global Ministries partners are doing as we work together in response to the global AIDS pandemic. In these e-newsletters we will be highlighting such things as:

- Important dates and events related to HIV and AIDS
- Updates on the development of HIV and AIDS educational resources
- The latest news from UCAN (United Church of Christ HIV and AIDS Network),
- Stories from people like you about your experiences, perspectives and mission efforts.
- Stories and commentary from the HIV and AIDS work of our Global Ministries partners around the world
- Public policy and other advocacy work related to HIV and AIDS and how to get involved

By subscribing you will automatically receive the e-newsletter via e-mail. It will also be available from our web site at www.ucc.org/hiv aids. We are just getting started with this, so in the beginning it will be an occasional newsletter that we hope will expand to a regular schedule in the near future.

We are so grateful for everyone who has expressed an interest in the work of UCAN. We hope that you will continue to journey with us in our mission to keep the promise to stop AIDS by subscribing to *UCAN Stop AIDS E-News* today.

let it shine
the UCC at 100 years

UNITED CHURCH
OF CHRIST
