Dear Premier Horgan

I am a grandparent who recognizes the importance of quality, affordable child care. I am writing to urge you to take immediate action to create more \$10aDay child care sites in my community.

As you have publicly acknowledged, everyone now understands the importance of child care. And, as we learn more about the particular impact of the pandemic on women, we know child care is essential to an effective recovery strategy.

With this new public support - and the federal recovery funding for child care available - now is the time for you to take bold steps to build the universal quality child care system promised by your government - where parent fees are no more than \$10 a day and educators earn fair wages.

\$10aDay child care will be life changing for families and our economy. Affordable child care will help families thrive not just survive.

I look forward to the good news that new \$10aDay child care sites are being created in my community.
