

## **Coalition of Child Care Advocates of BC (CCCABC)**

### **Solidarity and Endorsement Policy**

*( This is a living document )*

The CCCABC may endorse and/or act in solidarity with regional, provincial, national and international campaigns and activities that:

- Are consistent with the CCCABC goal of achieving high-quality, affordable, inclusive child care for all who choose it in BC, as detailed in the Community Plan for a Public System of Integrated Early Care and Learning (popularly known as the \$10aDay Plan);
- Demonstrate values compatible with our commitment to reconciliation, equity, diversity, and inclusion;
- Recognize and challenge colonialism, white privilege and racism because we explicitly stand against anti-Indigenous, anti-Black, and all other forms of racism.
- Address the power imbalances required to achieve gender equity, realize children's rights and the rights of Indigenous Peoples;
- Promote a sustainable economy and environmental well-being, and bring about world peace (Cause ya know, without world peace there is not much hope of equality, healthy children and other living things.)
