PURPOSE: This 4-day Educational Activity provides a comprehensive didactic curriculum and is being presented by 1199 Office of Continuing Education primarily for nurses who currently work in a Hemodialysis Unit and/or Renal Unit. It is an excellent program for nurses preparing to sit for the National Certification Exam for Nephrology Nursing. Should we have space available after we have accommodated those nurses working in Hemodialysis, we will consider nurses who are working in other units and considering transferring into Hemodialysis. This educational activity is designed for experienced hemodialysis RNs who are preparing to sit for the National Certification Examination in Nephrology Nursing or wish to acquire the didactic classroom requirement in preparation to work in a Hemodialysis Unit.

1199/SEIU League of Registered Nurses Office of Continuing Education fosters the professional growth and development of its RN members and the nursing community at large. We are committed to providing quality need-specific continuing education programs that are reflective of current issues and trends in healthcare and nursing.
