

Every time we pick up the paper or look at the news, there is a story about gun violence that has destroyed another family. And as healthcare workers, we know all too well the devastating consequences of gun violence.

These tragedies happen far too often and now is the time to enact sensible gun laws that take deadly weapons out of the wrong hands.

1199 SEIU members are going to Albany to take on the NRA and big gun companies – and support the Governor’s smart plan to protect our families!

# Join us in Albany to support Governor Cuomo’s **NY SAFE ACT** to end gun violence

**Rally Thursday February 28**
