Welcome!
Striving for the broadest agreements possible

Standing with Standing Rock,
Portland, September 2016
We welcome all contributions towards positive outcomes
Together we bring solutions to our climate crisis
Rising Temperatures
Sea Level Rise
Extended Droughts
Severely Disrupted Weather
Health Challenges
Perpetual Warfare
Refugees

Up to 200,000,000 displaced by 2050
Why 350?

* For thousands of years, CO2 has been a stable 275 ppm (parts per million).
  * Fossil fuels have pushed it up 400 ppm.
* Scientists agree that 350 ppm is the maximum.
* Known fossil fuel reserves are 5 times what can safely be burned.

80% MUST be kept in the ground!
Jobs, Justice, Climate Rally
Boston, December 2015
Grassroots organizing and mass public actions coordinated by a network of concerned citizens active in over 188 countries.

We Are The Ones We Have Been Waiting For

Join Us on December 12, 2015

“Jobs, Justice, Climate: Defending New England's Future”
In Maine

Advances in renewable energy now make the great shift to solar, wind, geothermal, and other developing technologies possible.

80-85% of our energy in Maine could be generated from solar, wind, and water by 2030.

Making the transition is no longer an impossible dream.
Speaking out!

Maine communities take oil trains to court.
350 Maine

Dedicated to solving the planetary climate crisis.

We grow our power collectively to find real and lasting solutions, to end our dependence on fossil fuels, and to build a healthy, sustainable and just life for people and the planet.
THE PEOPLE PREVAIL!
South Portland, Maine BLOCKS East Coast tar sands terminal!
Your Ongoing Support Essential!

Collective success

See https://fundrazr.com/notarsandsinsouthportland
Some of us have been involved for several years; others for as little as a few months.

We all share a concern for climate change and are motivated to take action to address it. We want to build a clean energy future.

What about you?
Forward on Climate Rally
Washington, DC 2013
Some of the most important work is to be done in our backyards, towns, communities, and in the lovely state we call home.

Regional groups self-organize to determine the course of their activism.

As necessary, we support one another by leveraging our collective strengths and resources.

Organizing by Region

- 350 Bangor
- 350 Central Maine
- 350 Midcoast
- 350 Greater Portland
- 350 York County
Everything is in support of the mission

People’s Climate March
New York 2014
some of our...
Rallies w/ 350.org & Allies

* Hands Across the Bridge (S. Portland)
* Auburn & Albany Bombtrain Blockades
* Keystone XL & Dakota Access Pipelines
  * No Tar Sands Rally and March
  * Sebago Summer Heat Flotilla
* Rally of Unity
On-going & Past Campaigns

* Solidarity With Standing Rock
* Keep It In the Ground
* Fossil Fuel Divestment
* Extreme Energy and Solutions
* Tar Sands Free Maine
* Opposition to Trans-Pacific Partnership
* Investigate Exxon
Standing with Allies
Coalition Partners include:

- Indigenous peoples
- Faith groups
- Students groups
- Environmental Organizations
- Social Justice orgs
- Citizen Action groups
Volunteer Opportunities

*Community Outreach and Education* (tabling, phone calls, community presentations & climate chats, news articles)

*Public Policy and Advocacy* (meet elected officials, public meetings, research policy issues, divestment)

*Mobilizing* (organize & orchestrate campaigns, projects, marches, rallies, promotion, create signs)

*Coalition Building* (develop collaborative relationships with environmental, faith-based, social justice and community groups)

*Operational Assistance* (create flyers, website updates, database management, fundraising, media)

There’s always room for volunteer activity!
Tabling on Congress Street
We strengthen individual skills and collective effectiveness both in ourselves and others
Encouraging all contributions to positive outcomes

Lac-Megantic Memorial Portland, July 2015
Our focus is on collective success

Break Free
