Re: Public Utility Commission of Texas Docket No. 44547 – Application of CenterPoint Energy Houston Electric, LLC to Amend a Certificate of Convenience and Necessity for a Proposed 345 kV Transmission Line within Grimes, Harris and Waller Counties

Dear <<OWNER NAME>>,

In April 2015, CenterPoint Energy Houston Electric, LLC (CenterPoint Energy) notified you that it had filed an application with the Public Utility Commission of Texas (PUC) to amend its Certificate of Convenience and Necessity (CCN). The CCN application requested authorization for CenterPoint Energy to construct new 345 kV transmission facilities either on or in close proximity to your property. The PUC assigned the CCN application to Docket No. 44547.

The PUC issued a final order in Docket No. 44547 on January 15, 2016, in which it approved the CCN application and designated route 1A-Modified (consisting of Segments B, F, LA, I3, LD, N1A, K3, N1C, H2, V2A, L3, A3, C3, D3A, M3, O3, P3, Q3, and R3) as the route along which CenterPoint Energy is authorized to construct the new transmission facilities. Route 1A-Modified, as approved by the PUC, is shown on the enclosed map.

The route that was approved by the PUC does not cross your property, and your property is no longer the subject of a pending proceeding. You can obtain a copy of the PUC's final order on the PUC interchange at the following link:

http://interchange.puc.texas.gov/WebApp/Interchange/application/dbapps/filings/pgSearch_Results.asp?TXT_CNTR_NO=44547&TXT_ITEM_NO=1282

If you have any questions about this project, please contact Wes Padgett, CCN Project Manager for CenterPoint Energy at 1-800-416-9625.

Sincerely,

A handwritten signature in black ink that reads "Michael J. Pakeltis".

Michael J. Pakeltis, Director
Transmission Operations
