How to run for office

Calculate your vote goal

Find your election's office (runforoffice.org).

Find the past few elections related to the office you want to run for and look at the recorded results. How many people voted in the last two elections?
*Hint: Look for elections with similar circumstances to your own.

Calculate your vote goal.

How many votes do you need to win?
*Hint: average the previous two elections and multiply that number by .53.
