Q16

Please describe your background (education, employment, community and civic activity, labor union affiliation etc.)

I have been active in supporting my neighbors and residents in city county and state issues. With my background in purchasing, sales, and inventory, I have used my passion to search how can issues be dealt with with least amount of cost with the best preservation of our environment.

Q17

Please describe your history of involvement (if any), with particular emphasis on the last five years, in local, regional, and/or state politics.

Supporting my neighbors and residents concerns to save our affordable housing, natural habitat, wildlife, tree canopy, as well as show dignity, support to our Senior, Veterans, disabled, those on fixed or low income while still supporting small local business has been at the forefront of my involvement in all concerns and issues.

Q18

Please describe the progress of your campaign and goals. How do you plan to win?

I am running in the office because the need for change is so strong. My neighbors and the residents support my candidacy as they know I am only sharing their concerns, their call for action.

Q19

What issues do you think deserve more attention from media or elected officials? How would you seek to remedy that through your campaign or when elected?

I think the need for truth, transparency, change to protect our financial stability, our environment, our neighbors, our democracy needs to start NOW. Already many of my neighbors are speaking out..I will continue to network and share my contacts, connections, and events, so we can all Speak out, share our ideas to bring a better future.

Q20

How do you plan to involve all residents and engage all communities in the decision making process? How would you work with people who lack trust in our institutions?

I reach out through social media, emails, events, and contacts with others. I hope that by the help, i have given to my neighbors and residents who have shared their concerns that it helps restore some of their trust in our institutions. We still have alot of work to do.

Q21

COVID has increased existing inequities. How will you use your office to support the most vulnerable? How would you promote an equitable recovery and create opportunity for all?

My heart and passion is helping our seniors, veterans, disabled, low and fixed income residents. I will continue to share all available community services, organizations that can help, bring those services to our community as I have been for years. I will continue to speak up and share the needs, so our other community leaders can help as well. Management of the covid relief funding needs to be a priority. Those that are most in need, that were previously denied help should be helped 1st. More adequate application process may need to be involved to ensure fair distribution of funding, with an auditing process. The system should not rely on who you know but rather real needs, and fair distribution.

Q22

If elected, how will you use your position to address racial inequality, and advance an anti-racist agenda? How specifically would you support the Black Lives Matter movement?

My concerns go 1st to our native american people, who's lands, waters, we live upon. Over generations there has been so much racial inequality in so many ways to so many nationalities. I support protecting every life and holding everyone accountable for any action that hurts another being. We need to more to provide services for wellness of our mental ill, our homeless, not just cash or money to administration. The time to stop division based on any biases is long over due. The time to treat each other with respect and dignity is everyday.
