Page 4: ALL CANDIDATES: Candidate Background and Free Response

**Q16**

Please describe your background (education, employment, community and civic activity, labor union affiliation etc.)

Environmental studies major/ marine biology minor from UW, Shoreline CC & Shoreline SD. Managed and executed community engagement and education events representing utilities Statewide for 6 years. Concurrently worked for 1.5 years to directly offer energy efficiency programs to individuals in mobile homes throughout King and Snohomish counties via door knocking. Prior to moving to LFP I chaired both Ballinger neighborhood association and the Council of Neighborhoods for Shoreline. Participated in Shoreline's sidewalk advisory committee, supported funding of sidewalks and Parks & Recreation plans to increase both inventory and services. Advocate for affordable housing, no barrier shelter and addressing homelessness by centering the traumatized communities experiences to formulate informed compassionate response.

**Q17**

Please describe your history of involvement (if any), with particular emphasis on the last five years, in local, regional, and/or state politics.

Shoreline Council of Neighborhoods - culminated as chair (2015 - 2019)  
Ballinger Neighborhood Association - current chair (2014 - current)  
Shoreline Sidewalk Advisory Committee  
Housing Advocacy - vocally supported HB 1236, the end of no cause eviction (passed 2021)  
Supported campaigns for Shoreline School Board & Shoreline City Council  
Speaking out for unserved homeless populations in Seattle and against sweeps (2019 - current)

**Q18**

Please describe the progress of your campaign and goals. How do you plan to win?

Seek endorsements from appropriate partners  
Create marketing materials: flyers, signs and postcards  
Outline my unique viewpoint and ethics  
Affirm my ongoing goal to reverse historical injustices in housing, including segregation  
Personally door knock to listen to the community and present myself/ ideas to the voters  
Attend forums, potentially host a Q & A or other event to increase engagement  
Tap networks of advocates to help amplify campaign message

**Q19**

What issues do you think deserve more attention from media or elected officials? How would you seek to remedy that through your campaign or when elected?

Environmental justice, environmental repair (increasing biodiversity, daylighting streams, banning herbicide/ pesticide usage, increasing culvert sizes etc), historical housing inequality, impacts of redlining on current financial inequality, increasing low-income and working class housing, fully funding education equally across schools/ districts, recognition of Indigenous peoples and ensuring access to traditionally used areas to the public.

Being willing to have difficult conversations with candor and employing creative problem solving. Seeking out and incorporating constructive criticism to continuously push for further personal development. Encouraging antiracism training and land acknowledgment as well as increasing awareness of privilege to increase inclusion and equity.

---

**Q20**

How do you plan to involve all residents and engage all communities in the decision making process? How would you work with people who lack trust in our institutions?

Targeting messaging and using multiple platforms to ensure residents are not being missed. Being available to the public, validating their concerns and finding common ground to move forward with changes to ensure trust continues to grow in the future.

---

**Q21**

COVID has increased existing inequities. How will you use your office to support the most vulnerable? How would you promote an equitable recovery and create opportunity for all?

I would provide resources in the form of financial relief opportunities, counseling and free legal services. I will call for attracting new financial opportunities, community business revival and outreach directly to communities that remain disenfranchised from historical failures. I would make sure staff clarifies code to encourage rental housing and income opportunities within the single family home far beyond covid.

---

**Q22**

If elected, how will you use your position to address racial inequality, and advance an anti-racist agenda? How specifically would you support the Black Lives Matter movement?

Regardless of election I will continue to speak up against injustice and for racial equity. I am an avid student of antiracist thought and I follow Black & Indigenous Womxn. I support both BLM and Indigenous Decolonization. I acknowledge that our current governmental body is a colonialist force that decimated Indigenous people in ongoing genocide. I recognize that in Lake Forest Park, as with many earlier incorporated Cities, homes were originally encumbered with racially restrictive language in the deeds. These deeds specified that only the white or caucasian races were permitted, only excepting non-white residents if they were servants.

**Q35**

Our region is growing quickly. How will you ensure that existing residents and newcomers alike have equitable access to affordable housing, public transit, and neighborhood amenities such as parks and schools? How will you protect current residents, and especially our most vulnerable communities, from displacement caused by this growth? How will you provide for and protect those displaced?

Encouraging thoughtful development both on large multifamily lot and the full use of participating single family lots. We need to pass less regressive tax structures to support affordable housing, schools, parks, transit and more. Demanding we build out and provide tiny housing for anyone, including those pushed out by development. Partner with NGOs and lean on assistance programs so the most vulnerable get the resources they are entitled to. Follow up personally to ensure no one slipped through the cracks.

**Q36**

How have you worked to combat climate change? How would you use your elected office to ensure your region drastically lowers net carbon emissions by 2030 and achieves carbon neutrality by 2050?

I spent 6 years out of college directly fighting climate change, increasing efficiency using utility rebates to sell individuals on adopting LEDs and other significant reductions. I would use the "carrot" approach to request more electric charge stations, partial payments for in-home installs. I would request events be enacted to encourage home upkeep, centering on insulation, furnace maintenance and reducing heat loss. I would demand utilities step in to reduce use of natural gas and improve the electric grid to reduce loss. I would help promote the adoption of a deep green environmental ethic in the City and County.

**Q37**

What specific actions will you take to address the homelessness crisis in King County, both in the short term and long term? How do you plan to implement these solutions?

Community engagement, both for the houseless and housed neighbors. I start by asking what communities desire and have heard them clearly on tiny houses. Small sheds are being provided cheaply now but these are not adequate for long term living, are not assets and still have no way to be legally sited without case workers etc. being on site. I believe more hotel vouchers should be distributed short term to fill the gap and allow for dignity. Tiny house legislation to allow legal living in built out tiny house trailers is a very important goal of mine for the year.

**Q38**

"Structural racism is not always caused by racist actors – it is caused by institutional arrangements overlaid on historical policies that continue to perpetuate racialized outcomes." - Stephen Menendian How would you use your position to work to dismantle these arrangements including, but not limited to, exclusionary land use policies?

As a realtor and potential city council member I must actively reverse the racism that has plagued the local housing market. It is my responsibility to repair harms stemming from redlining as well as unregulated gentrification of Black neighborhoods. Dismantling the systems that have resulted in segregated neighborhoods and schools is the only way to move. That includes making sure a predominantly white area is truly attractive and safe for Black and Brown families-- as well as economically viable.
