Q16

Please describe your background (education, employment, community and civic activity, labor union affiliation etc.)

I am the son of a teacher. I graduated from the University of Southern Mississippi honors college in 2014 where I was named the first African American Harry S. Truman Scholar in my university's history. Immediately after graduation I was offered a position as a Truman-Albright Policy Fellow in the Department of Health and Human Services Administration for Children and Families during the Obama Administration. After completing my fellowship in 2016, I accepted an offer to teach 2nd grade in Federal Way Public Schools while earning my teaching certificate from the University of Washington Graduate School of Education. I served on my union (FWEA) executive board for several years until I was appointed to succeed former District 7 Board Director Betty Patu in 2019. During my time on the board, I have served as the legislative liaison, Chair of the Audit and Finance Committee and Board Vice-President. I still currently teach 2nd grade in FWPS.

Q17

Please describe your history of involvement (if any), with particular emphasis on the last five years, in local, regional, and/or state politics.

I have worked on several campaigns for democrats such as Bob Hasegawa, Joe Nguyen, Girmay Zahily, Sam Cho and many others. I currently serve as a PCO and KCD rep in the 37th district. I also served as the WEA PAC committee chair for the Federal Way Education Association, a role where I connected educators with state lawmakers to advocate for pro-public education policy.

Q18

Please describe the progress of your campaign and goals. How do you plan to win?

Our campaign has raised over \$10,000 from over 100 unique donors and have secured the endorsements of Councilmember Zahilay, Senators Rebecca Saldana, Bob Hasegawa, Joe Nguyen, Representatives Hackney, Tamiko-Santos, and countless other community pillars. We plan to center our messaging around the values I've championed on the board, community access, culturally responsive curriculum, removing police officers from schools, and ending restraint and isolation in our schools.

Q19

What issues do you think deserve more attention from media or elected officials? How would you seek to remedy that through your campaign or when elected?

I believe that student mental health and public-school funding need more attention. If elected I would advocate for more school counselors and nurses, but we can't wait for the state. I will also champion the adoption or development of a culturally responsive socioemotional learning curriculum that focuses on mental health and student well-being.

Q20

How do you plan to involve all residents and engage all communities in the decision making process? How would you work with people who lack trust in our institutions?

I have already begun engaging community in unique ways through our inaugural participatory budgeting initiative and opening our legislative agenda for community input and feedback. I have collaborated with youth groups such as the NAACP Youth Council, WA-BLOC, Black and Brown Minds Matter and others to end our relationship with SPD and develop/pass a policy adding student members to the school board. If elected I will continue to share power and access with students and community by creating opportunities for them to lead.

Q21

COVID has increased existing inequities. How will you use your office to support the most vulnerable? How would you promote an equitable recovery and create opportunity for all?

Initially SPS focused on computers, hotspots, meals, and right now needs funding. Going forward we must expand our focus to include mental health, mutual aid, curriculum, and college/career readiness pathway development for students.

Q22

If elected, how will you use your position to address racial inequality, and advance an anti-racist agenda? How specifically would you support the Black Lives Matter movement?

Last year the School Board passed a resolution centering the Safety of Black Students, which laid out 4 clear actions the district must take to make our schools safer and more welcoming places for black students. Currently, we are working to end isolation and restraints and passed a student community workforce agreement. Looking forward, we must make Black Studies and Ethnic Studies a graduation requirement and work to hire and retain educators that reflect the diversity of our student body.

For any yes/no questions you answered "qualified" please explain:

Q54

How has the pandemic changed your perspective on educational equity? What will you propose to address the educational consequences of the COVID pandemic? What specific policies will you seek to ensure that all staff and students can safely return to in-person school safely during the COVID pandemic? How will you work to bridge the digital divide both now and after return to in-person education?

Schools have proven themselves to be the social safety net for many of our families. Our systems must be better prepared for crisis, that means improving access to technology and physical/mental healthcare. Community Health Centers like at Nova need to be a part of planning for south end schools as they are rebuilt. We need municipal broadband, which we are strongly advocating for at the state and federal level. We also need to maintain our commitment to 1:1 devices along with curriculum that teaches our kids how to use these tools to their full potential.

Q55

What policies or changes will you seek to ensure that all students— regardless of their gender, race, class, disability, or ethnicity—receive an education that enables them to reach their fullest potential? What would you do to advance anti-racist and indigenous curriculum? What do you see as your role in disrupting the school-to-prison pipeline?

I see my role both as an educator and board member to create and champion policies that are explicitly anti-racist. First steps would be making Black Studies and Ethnic Studies a graduation requirement. Pushing a system shift to student focused outcomes, continuing to reform our racist disciplinary practices, and adopt/develop a historically honest and accurate social studies curriculum.

Q56

What should schools and school districts do to support the physical and mental health of all students; including LGBTQ+ students and students with disabilities? Please provide specific examples. Also, what actions would you take to remedy student access to and pay inequity among school nurses, paraeducators, and school office staff?

School districts must provide identity safe learning environments like our program at Nova High School. As schools are being designed to be rebuilt, we must invest in more robust health centers that are accessible to students and their families. However, those centers would need to be staffed by nurses and other healthcare professionals which will require advocacy to the state.

Q57

What would you do to advocate for ample and equitable funding for k-12 education including special education, school nurses, counselors, mental health professionals, and paraeducators?

The state legislature has taken bold steps by taking up the capital gains tax. I plan to play an active collaborative role in ensuring the tax has it's intended purpose of supporting K-12 education.

Q58

Has the disruption of regular schooling and introduction of distance learning in the last year caused you to re-evaluate any aspect of traditional instruction and the structure of schooling? Are there changes you would like to see implemented?

Many black students are thriving in this learning environment, we need to think of ways we can replicate the positives from school closures, more time with family/in community, and offer options for how our students matriculate through our school system. Traditional schooling has presented significant barriers to success for many students. We owe it to them to offer something better.
