Dear Rep. Maloney:

As per the attached affidavit I faxed to the DOJ OIG, the FBI agent working with Sally Smith showed her an incriminating photo of me in order to attempt to stop me from running against you.

Please do 2 things for me, and inform me by Tue, Mar 3, 2018 noon what you have done:

1. Contact the FBI to ask them to relieve of his duties the agent who made the threat to Sally Smith, and to investigate how that agent got the photo, and whom he worked with in the Government within the Executive and Judicial branches of the government.
2. Issue a statement that you deplore any blackmail attempts by a US Government agency against me and you have cooperated with me in having this illegal act investigated immediately.

I asked Sally for the name of the FBI agent, so that he can be removed, but she feared retaliation and possible physical assault (by others) and removal of police protection for the confidential acts she's performing for the US Government in order to punish her for naming that FBI agent.

Regards,

Peter Lindner
