

March For Life

Sunday 18 March 2018

After receiving a comprehensive 'NO' from Queenslanders last year, this Labor government is still preparing to move forward with a bill on decriminalising abortion regardless. We must continue to demonstrate to them and to all Queenslanders that the community does not want these extreme laws.

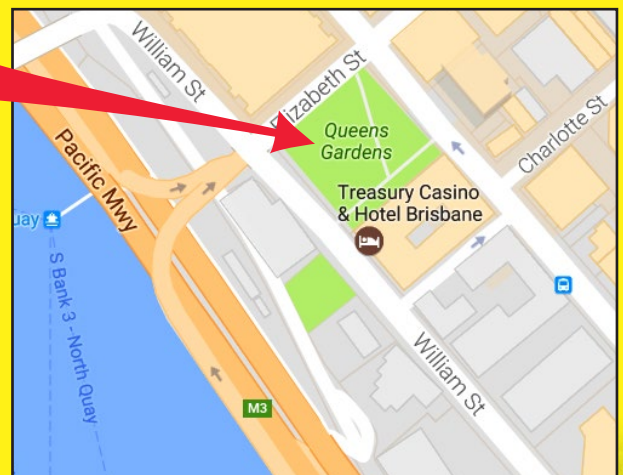

**If ever there was a time to stand up for life, it's now.
Bring some friends and join us as we March For Life!**

1:30pm: Assemble at Queens Gardens, cnr George, Elizabeth and William Streets in the Brisbane CBD.

2:00pm: We march through the city and onwards to Speaker's Corner outside Parliament House

Cherish Life will provide all signs and banners – please do not bring your own.

Bring a small donation to help cover the costs of running the event.

Supported by the combined forces of pro-life and pro-family groups in Queensland, unified and working together as one.

What you can do to stop the decriminalisation of abortion in Queensland.

IT'S THEIR SECOND ATTEMPT!
(because being defeated is so 'last year')

The people who get to make the decision are our members of parliament, elected to represent us on our behalf. They will each be voting on this second attempt to decriminalise abortion.

The most important thing you can do to ensure that your state MP actually hears from the community is to communicate directly with him or her.

Avoid phone messages or email as electoral staff may not even pass them on. This actually happened in Victoria in 2008.

Visit your MP in person or write a personal hand-written letter. This is the most powerful thing that you can do. Be polite and respectful, and inform your MP that you do not want him/her voting for the legalisation of abortion until birth for any reason.

Sign the official Queensland parliament e-petition. As this is an official petition conducted by the Queensland Parliament, it will actually carry weight and come into consideration by MPs when deciding how to vote. (Non-official petitions are routinely ignored as they cannot be verified by the parliament.) For easy access, go to www.cherishlife.org.au/petition

Tell your family and friends. Research shows that the clear majority of the community is deeply uncomfortable with abortion, especially for any reason and at any stage. The biggest battle is to get the word out. Getting friends and family to join in the effort is as easy as telling them about it.
