

Speak Up for Education

It takes **15 years** before an NC teacher can earn a salary of \$40,000 per year.

Per-pupil spending in North Carolina is the **third-worst** in the nation, and the proposed budget cuts education spending even further.

Classroom size restrictions may be **removed** for younger elementary students.

Pre-K **spending continues to be cut**, despite the fact that it has proven to aid child growth and development through fifth grade.

Get involved!

Visit http://www.actionnc.org/issues_education to get involved in the education campaign, to learn about what's happening to education in North Carolina, or to become a volunteer.
