## **Phone message script**

I am a constituent and would like to request a meeting with you or your staff to talk about local child care issues.

*[Very brief local or personal story that provides context for your call]*

I am calling on Premier Ford to sign onto the federal child care plan - including committing to develop a workforce strategy and wage scale for ECEs and child care workers.

As my elected representative, I am asking you to use your position to support this call.

Please call me back at \_\_\_\_\_ to set up a time to meet.
