The letters are being collected, copied and mailed by Judy to the federal Minister of Health in Ottawa.

More than 300 letters have been collected so far in our efforts to pressure our liberal federal government to implement a single payer universal prescription drug plan in Canada. We have waited more than 55 years for this moment, and with the NDP planning to make pharmacare a priority in the new session of Parliament, we feel we are very close to achieving this momentous accomplishment.

Thank you for your participation! And in Solidarity,
