If you have any union pins, buttons, stickers, or posters, please have your child bring them to camp so that they can trade these items with other campers. It would also be helpful if you had a conversation with your child prior to camp that outlines which union you are a member of, what you do in your union, what jobs are covered by your union and any other information which would encourage your child to participate in discussions around unions.

If your child plays a musical instrument, please encourage them to bring them, as there will be labour music around the campfire and talent show.

Please ensure you have talked with your child about Camp and that they are interested in attending. It places everyone in a challenging position when your child does not want to be at Camp.

Any questions regarding the camp's program can be directed to me at **780-483-3021** or **780-868-7379 (cell)**.

Thanks for your cooperation in these matters. We have planned a fun camp and sincerely hope that your child comes prepared to fully participate in our numerous activities!

In solidarity,
