

Petition: Protect Our Children and Our Schools!

I call on all Alaskan elected officials to protect our children. I will not put a price tag on the safety of our schoolgirls. Children should never be forced to undress in the presence of the opposite sex. It violates their safety, privacy, and harms their dignity. Regardless of a presidential edict to the contrary, this is common sense. Parents have had enough. Alaskans have had enough.

I, the undersigned, call on Governor Bill Walker, Attorney General Craig Richards and all Alaskan elected officials to utilize the full authority of their offices to challenge this extreme mandate. Action must be taken to protect our children.
