Petition Calling for Expanded Homelessness Support

To the Honourable the Speaker and Members of the Legislative Assembly of New South Wales.
This Petition of the people of New South Wales brings to the attention of the House:

Anyone can become homeless; with mental illness, disability, health conditions, family break-up, violence, torture and trauma contributing to people losing their home. Homeless people are at high risk of violence, disease and losing hope.

Homeless people need help to get back on their feet, including services that work with people sleeping rough to find pathways off the street, prevention programs to help people re-connect with family support, and early help before living rough becomes normal. Permanent low cost housing with living skills support is vital for people to make a new life off the street.

The undersigned petitioners therefore ask the Legislative Assembly to increase funds for low cost housing and homelessness services.
